Note : Industry average has been calculated by taking the average of peer group companies.

*Not available as the relevant fiscal years have not been completed/information not disclosed

Key ratios for the Company for the three fiscal years stated above are/shall be calculated as follows:

Basic Earnings per Share (Rs.) = net profit after tax and adjustments, attributable to equity shareholders / Weighted average no. of equity shares outstanding during the fiscal year

P/E - Closing Market Price as of relevant fiscal year end on BSE / Basic EPS for year ended

Return on Net Worth for equity shareholders (%) (RONW) = Profit for the year divided by total net worth

NAV is computed as equity attributable to owners (total equity) divided by the number of equity shares outstanding at the end of the year.
