INTERNAL RISK FACTORS:

THE COMPANY AND ITS BUSINESS-RELATED RISKS

- 1. As an NBFC, we are subject to periodic inspections by the RBI. Non-compliance with observations made by RBI during these inspections could expose us to penalties and restrictions.***

Under section 45N of the Reserve Bank of India, 1934 (“RBI Act”) we are subject to periodic inspections by the RBI to verify correctness or completeness of any statement, information or particulars furnished to the RBI for the purpose of obtaining any information or particulars which our Company has failed to furnish on being called upon to do so. While we may respond to RBI and address such observations; there can be no assurance that the RBI will not make similar or other observations in the future. If we are unable to resolve such deficiencies to RBI’s satisfaction, our ability to conduct our business may be adversely affected. Imposition of any penalty or adverse findings by the RBI during the ongoing or any future inspections may have an adverse impact on our business prospects, financial condition and results of operations.

NBFCs in India are subject to strict regulation and supervision by the RBI. We require certain approvals, licenses, registrations and permissions for operating our business. Such approvals, licenses, registrations and permissions must be maintained / renewed over time and we may have to comply with certain conditions in relation to these approvals. Moreover, the applicable requirements may change from time. We are required to obtain and maintain a license for carrying

on business as an NBFC. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. RBI has the authority to change these norms/ criteria as and when required. There have been instances in the past, wherein we have delayed in filing annual returns under the RBI Act, in the past. Inability to meet the prescribed norms/ criteria in the future, can adversely affect the operations and profitability of our Company.

2. *We operate in a highly competitive industry and our inability to compete effectively may adversely affect our business.*

We operate in a highly competitive industry. Given the diversity of our businesses, and the products and services offered by us, we face competition from the full spectrum of public sector banks, private sector banks (including foreign banks), financial institutions, captive finance affiliates of players in various industries, small finance banks and other NBFCs who are active in SME, retail and individual lending. Many of our competitors may have greater resources than we do, may be larger in terms of business volume and may have significantly lower cost of funds compared to us. They may also have greater geographical reach, long-standing partnerships and may offer their customers other forms of financing that we may not be able to provide. Competition in our industry depends on, amongst others, the ongoing evolution of government and regulatory policies, the entry of new participants and the extent to which there is consolidation among banks and financial institutions in India. We cannot assure you that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in our increasingly competitive industry and our inability to compete effectively may adversely affect our business.

3. *Our business will require substantial funds, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.*

Our liquidity and profitability are, in large part, dependent upon our timely access to, and costs associated with raising capital including both debt and equity. Our business depends and will continue to depend on our ability to access diversified low-cost funding sources. As a financial services company, we face certain additional regulatory restrictions on our ability to obtain financing from banks. Further, under Indian Law, foreign investors are subject to investment restrictions that may limit our ability to attract foreign investors or capital from overseas investors.

Pursuing our growth strategy and introducing new product offerings to our customers will have an impact on our long-term capital requirements. With the growth of our business, we may be increasingly reliant on funding from debt capital markets. The market for such funds is competitive and our ability to obtain funds at competitive rates will depend on various factors. If we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors, including the regulatory environment and policy initiatives in India, lack of liquidity in the market, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition. If we are unable to obtain adequate financing or financing on terms satisfactory to us and in a timely manner, our ability to grow or support our business and to respond to business challenges could be limited and our business prospects, financial condition and results of operations would be materially and adversely affected.

4. *We are affected by volatility in interest rates for both our lending and fund raisings operations, which could cause our net interest income to decline and adversely affect our results of operations and profitability.*

A significant component of our revenue is the interest on loans and other financing activity we receive from the loans we disburse. Our net interest margins are affected by any volatility in interest rates in our lending operations. Interest rates are highly sensitive to many factors beyond our control, including competition from other banks and NBFCs, the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors, which have historically generated a relatively high degree of volatility in interest rates in India. Persistently high inflation in India may discourage the Government from implementing policies that would cause interest rates to decrease. Moreover, if there is an increase in the interest rates we pay on our borrowings that we are unable to pass to our customers, we may find it difficult to compete with our competitors, who may have access to funds at a lower cost or lower cost deposits. To the extent our borrowings are linked to market interest rates, we may have to pay interest at a higher rate than lenders that borrow only at fixed interest rates. Further, our ability to pass on any increase in interest rates to borrowers may also be constrained by regulations implemented by the Government or the RBI. In a

declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, it could lead to a reduction in our net interest income and net interest margin.

- 5. We depend on the accuracy and completeness of information about customers and counterparties for certain key elements of our credit assessment and risk management process. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.***

In deciding whether to extend credit or enter into other transactions with customers, for certain key elements of the credit assessment process, we rely on information furnished to us by or on behalf of customers (including in relation to their financial transactions and past credit history). We may also rely on certain representations from our customers as to the accuracy and completeness of that information. For ascertaining the creditworthiness and encumbrances on collateral we may depend on the respective registrars and sub-registrars of assurances, credit information companies or credit bureaus, and on independent valuers in relation to the value of the collateral, and our reliance on any misleading information given, may affect our judgement of credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, prospects, results of operations and financial condition. We may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation. Our risk management measures may not be adequate to prevent or deter such activities in all cases, which may adversely affect our business prospects, financial condition and results of operations.

- 6. High levels of customer defaults or delays in repayment of loans could adversely affect our business, financial condition and results of operations.***

Our business involves lending money and accordingly we are subject to customer default risks including default or delay in repayment of principal and/or interest on our loans. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted. Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to continuously monitor the loan contracts, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition.

- 7. We may not be able to recover, on a timely basis or at all, the full value of collateral or amounts which are sufficient to cover the outstanding amounts due under defaulted loans.***

The value of the security provided to us, may be subject to reduction in value on account of other extraneous reasons. Consequently, the realizable value of the security for the loans provided by us, when liquidated, may be lower than principal amount outstanding along with interest and other costs recoverable from such customers.

Although we believe that we generally maintain a sufficient margin in the collateral value, if we have to enforce such pledges and if at the time of such enforcement, due to adverse market conditions, the market value of the pledged securities have fallen to a level where we are unable to recover the monies lent by us, along with interest accrued thereon and associated costs, the results of our operations would be adversely affected. In case of any shortfall in margins in connection with the securities pledged as collaterals, we typically call upon the relevant customer to provide further collateral to make up for the deficit in such margins. Furthermore, enforcing our legal rights by litigating against defaulting customers is generally a slow and potentially expensive process in India. Accordingly, it may be difficult for us to recover amounts owed by defaulting customers in a timely manner or at all.

- 8. Our Company's inability to obtain, renew or maintain the statutory and regulatory permits and approvals which are required to operate its existing or future businesses may have a material adverse effect on its business, financial condition, cash flows and results of operations.***

NBFCs in India are subject to regulations and supervision by the RBI. In addition to the numerous conditions required for the registration as an NBFC with the RBI, we are also required to comply with certain other regulatory requirements for its business imposed by the RBI. In the future, there could be circumstances where our Company may be required to renew applicable permits and approvals and obtain new permits and approvals for its current and any proposed operations or in the event of a change in applicable law and regulations. There can be no assurance that RBI or other relevant authorities

will issue any such permits or approvals in the time-frame anticipated by our Company, or at all. In addition, we require several registrations to operate our branches in the ordinary course of business. These registrations include those required to be obtained or maintained under applicable legislations governing shops and establishments, professional tax, GST registrations etc. Some of these approvals may have expired in the ordinary course, and our Company has either applied, or is in the process of applying for renewals of them. Failure by our Company to renew, maintain or obtain the required permits or approvals may result in an interruption of its operations and may have a material adverse effect on its business, financial condition, cash flows and results of operation.

9. *Our borrowers may transfer loan balances to other banks or financial institutions, resulting in a loss of expected interest income expected from such loans.*

If interest rates rise, borrowers with variable interest rates on their loans are exposed to increased equated monthly instalments (“EMIs”) when the loans’ interest rate adjusts upward. Such borrowers may seek to refinance their loans through balance transfer to other banks and financial institutions to avoid increased EMIs that result from an upwards adjustment of the loans’ interest rate. Even if interest rates do not increase, our borrowers may seek to transfer loans to banks or other financial institutions that offer lower interest rates. Loan balance transfers result in a loss of interest income expected from such loans over the course of their tenure. All NBFCs and HFCs are prohibited from charging pre-payment penalties on any floating rate term loan sanctioned for purposes other than business to individual borrowers. Even where we are allowed to charge a prepayment penalty, the amount of such penalty will not make up for all of the loss of interest income expected from such loans. Some of our borrowers may be able to find balance transfer options at comparably lower interest rates or other financing alternatives, which could have an adverse effect on our business, results of operations and financial condition.

10. *We may experience difficulties in expanding our products.*

Expanding our products portfolio with new or existing products can be costly and require significant management time and attention. Additionally, as our operations grow in size, scope and complexity and our product offerings increase, we will need to enhance and upgrade our systems and infrastructure to offer an increasing number of enhanced solutions, features and functionality. The expansion of our systems and infrastructure will require us to commit substantial financial, operational and technical resources in advance of an increase in the volume of business, with no assurance that the volume of business will increase. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high -risk credit and impose significant costs on us.

11. *We are exposed to operational and credit risks which may result in NPAs, and we may be unable to control or reduce the level of NPAs in our portfolio.*

Our Company’s inability to control the number and value of its NPAs may lead to deterioration of the quality of its loan portfolio and may adversely impact its business. Further, if our customers default in their repayment obligations, our business, results of operations, financial condition and cash flows may be adversely affected.

We may face asset-liability mismatches, which could affect our liquidity and consequently may adversely affect our operations and profitability.

Assets and liability mismatch (“ALM”) represents a situation when financial terms of an institution’s assets and liabilities do not match. ALM is a key financial parameter indicative of an NBFC’s performance. We cannot assure you that we will be able to maintain a positive ALM always. We may rely on funding options with short term maturity periods for extending long term loans, which may lead to a negative ALM. Further, mismatches between our assets and liabilities are compounded in case of prepayment of financing facilities we grant to customers. Any mismatch in our ALM, may lead to a liquidity risk and have an adverse effect on our business prospects, financial condition, results of operations and profitability.

12. *Security breaches of customers’ confidential information that we store may harm our reputation and expose us to liability.*

We store customers' bank information, credit information and other sensitive data. Any accidental or willful security breaches or other unauthorized access could cause the theft and criminal use of this data. Security breaches or unauthorized access to confidential information could also expose us to liability related to the loss of the information, time-consuming and expensive litigation and negative publicity. If security measures are breached because of third party action, employee error, malfeasance or otherwise, or if design flaws in our software are exposed and exploited, and, as a result, a third party obtains unauthorized access to customer data, our relationships with customers will be severely damaged, and we could incur significant liability. Further, we engage with certain third party service providers, and although our contracts with them restrict the usage of client data and impose protective precautions, there can be no assurance that they will abide by such contractual terms or that the contracts will be found to be in compliance with data protection laws. Because techniques used to obtain unauthorized access or to sabotage systems change frequently and generally are not recognized until they are launched against a target, we and our third party hosting facilities may be unable to anticipate these techniques or to implement adequate preventative measures. In addition, we may be required under applicable regulations to notify individuals of data security breaches involving their personal data. These mandatory disclosures regarding a security breach are costly to implement and often lead to widespread negative publicity, which may cause customers to lose confidence in the effectiveness of our data security measures. Any security breach, whether actual or perceived, would harm our reputation, and result in lost customers, which could in turn have a material adverse effect on our business, prospects, results of operations, financial condition or cash flows.

The Issue proceeds will be utilized by our Company for repayment of unsecured loans availed by it from our Promoter and members of our Promoter Group.

One of the Objects of this Issue is to repay the unsecured loans amounting to ₹ 4,656.40 lakhs availed by our Company from our Promoter and members of our Promoter Group. As on December 31, 2025, we have outstanding unsecured loans aggregating to ₹ 5126.21 lakhs from our Promoter and member of the Promoter Group. Out of the Issue proceeds, we intend to utilize ₹ 4,656.40 lakhs for repayment of unsecured loans availed by our Company from our Promoter and members of the Promoter Group. For further details, please see the chapter titled "***Objects of the Issue***" beginning on page 49 of the Letter of Offer.

13. *The Statutory Auditors of our Company have included certain additional emphasis of matters in their audit report issued for the Financial Year ended March 31, 2025.*

The Statutory Auditors of our Company have included the following material emphasis of matters in the audit report issued for the Financial Year ended March 31, 2025:

"Audit trail"

Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023.

The company has used an accounting software that has a feature of audit trail and the same was operated/ enabled from 10th June 2024. The transactions recorded in the software were covered in the audit trail feature from the date it was enabled. Further, the audit trails were preserved as per statutory requirements for record retention.

There can be no assurance that any similar remarks, or matters of emphasis will not form part of our audit reports for the future fiscal periods, which could subject us to additional liabilities due to which our reputation and financial condition may be adversely affected.

14. *If we are unable to comply with the capital adequacy requirements stipulated by the RBI in connection with our lending business, our business, results of operations and cash flows may be materially and adversely affected.*

Our lending business, is subject to various regulations relating to the capital adequacy of NBFCs, which determine the minimum amount of capital we are required to maintain. There can be no assurance that we will be able to maintain CRAR within the regulatory requirements. Further, as we grow our lending business loan portfolio, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to such business. There can be no assurance that we will be able to raise adequate additional capital in the future on favourable terms, or at all. This could result in non-compliance with applicable capital adequacy ratios, which could have a material

adverse effect on our business, results of operations and cash flows. Also, there is no assurance that RBI will not take any action for breaches in capital adequacy norms by our Company in the future. This could materially adversely affect our business, prospects, results of operations, financial condition and cash flows and could impair our ability to continue current operations and in extreme case, may lead to suspension/ cancellation/ withdrawal of our license to operate as an NBFC.

15. *Any failure or severe weakness in our internal controls system could result in operational errors or fraud, affecting our profitability and reputation materially and negatively.*

We have appropriate internal controls that are commensurate with the size and complexity of our operations. Our internal control procedures are equipped to conduct continuing assessments of the sufficiency and effectiveness of internal controls to ensure that business units follow our internal risk policies, compliance requirements, and internal circular guidelines. While we test and update our internal controls systems on a regular basis, we are nevertheless susceptible to operational risks deriving from the potential inadequacy or failure of internal processes or systems, and our measures may not be enough to ensure effective internal controls in all instances.

Our management information systems and internal control procedures for monitoring our operations and overall compliance may not catch every instance of non-compliance or suspicious transaction. If internal control deficiencies are discovered, our actions may not be sufficient to remedy the situation. We encounter operational risks and there may be losses as a result of internal control system failures or shortcomings. Deal errors, pricing problems, erroneous financial reporting, fraud, and the loss of essential systems and infrastructure may all result from failures in our internal controls systems. Such incidents may have a negative impact on our reputation, business, and operational outcomes. Internal control failures or material deficiencies can also lead to fraud situations. There can also be no assurance that we would be able to prevent frauds in the future or that our existing internal mechanisms to detect or prevent fraud will be sufficient. Any fraud discovered in the future may have an adverse effect on our reputation, business, results of operations and financial condition.

16. *We are subject to cyber security risks and security breaches and may incur increasing costs in an effort to minimize those risks and to respond to cyber incidents.*

A number of other companies have disclosed cyber-attacks and security breaches, some of which have involved intentional attacks. Attacks may be targeted at us, our customers, or both. Although we devote significant resources to maintain and regularly upgrade our systems and processes that are designed to protect the security of our computer systems, software, networks and other technology assets and the confidentiality, integrity and availability of information belonging to us and our customers, our security measures may not provide absolute security. Despite our efforts to ensure the integrity of our systems, it is possible that we may not be able to anticipate or to implement effective preventive measures against all security breaches of these types, especially because the techniques used change frequently or are not recognized until launched, and because cyber-attacks can originate from a wide variety of sources, including third parties outside the Company such as persons who are involved with organized crime or associated with external service providers or who may be linked to terrorist organizations or hostile foreign governments.

A successful penetration or circumvention of the security of our systems could cause serious negative consequences, including significant disruption of our operations, misappropriation of our confidential information or that of our customers, or damage to our computers or systems or those of our customers and counterparties, and could result in violations of applicable privacy and other laws, financial loss to us or to our customers, loss of confidence in our security measures, customer dissatisfaction, significant litigation exposure, and affect to our reputation, all of which could have a material adverse effect on us.

Our servers are also vulnerable to computer viruses, physical or electronic break-ins, and similar disruptions. We may need to expend significant resources to protect against security breaches or to address problems caused by breaches. Security breaches, including any breach of our systems or by persons with whom we have commercial relationships that result in the unauthorized release of customers' or businesses' personal information, could damage our reputation and expose us to a risk of loss or litigation and possible liability.

17. *Our insurance coverage may not adequately protect us against losses.*

We keep insurance coverage that we believe is sufficient for our activities. Our insurance policies, on the other hand, may not provide appropriate coverage in some situations and are subject to deductibles, exclusions, and policy limits. We cannot, however, guarantee that the terms of our insurance policies will be adequate to cover any damage or loss we incur, that such coverage will continue to be available on reasonable terms or in sufficient amounts to cover one or more large claims, or that the insurer will not deny coverage for any future claim.

18. *Our inability to completely and timely detect money laundering and other illicit actions may expose us to extra responsibility and affect our business and reputation.*

In India, we must follow all applicable anti-money laundering (“AML”) and anti-terrorism laws and regulations. We bear the risk of failing to follow the statutory know your customer (“KYC”) requirements, as well as fraud and money laundering by dishonest customers, in the ordinary course of our business. Despite having internal rules, processes, and controls in place to prevent and identify any AML activity and maintain KYC compliance, we cannot guarantee that we will be able to entirely manage instances of any possible or attempted violation. Any failure or ineffectiveness of our control system to detect such activities completely and immediately may subject us to regulatory action, including fines and penalties, and have a negative impact on our business and reputation.

19. *Our trademarks used by us are currently not registered in the name of our Company. Failure to protect our intellectual property rights may adversely affect our competitive business position, financial condition and profitability.*

Our name and logo are not registered under the provisions of Trademark Act, 1999 and therefore may be subject to counterfeiting or imitation which would adversely impact our reputation and lead to loss of customer confidence, reduced sales and higher administrative costs. Thus, we cannot guarantee that the application for registration of some of our trademarks made by us will be allowed. We will be initiating the process of registering our trademarks and will be engaging an external intellectual property consultant to assist with the filing, our company is currently preparing the required applications for submission to the trademark authorities. In case we are unable to obtain the registration for the said trademarks in our name, we may suffer reputation loss, loss of customers etc. as we do not enjoy any statutory protection under the Trade Marks Act, 1999 which is important to retain our brand image. Further even if our name and logo are registered, we cannot assure that third parties will not infringe on our intellectual property, thereby causing damage to our business prospects, reputation and goodwill.

20. *In the past, there have been instances of delayed or non-filing of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 to RoC by our Company.*

In the past, there have been certain instances of delay in filing of statutory forms as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 with the RoC, which have been subsequently filed by payment of an additional fee as specified by RoC by our Company. Further, there have been instances of non-filings of statutory forms with RoC as per the reporting requirements laid down under the Companies Act 1956 and Companies Act, 2013 by our Company, for instance, while our Company has repaid the loans which were availed from The Vysya Bank Limited, State Bank of India and Bank of Maharashtra, however it failed to file the statutory form, Form 17 with the RoC for satisfaction of the charge, consequent to which the loans availed from the aforementioned banks are still reflecting under the index of charges maintained by the RoC. No show cause notice in respect to the above has been received by our Company till date. The occurrence of instances of delayed or erroneous filings in future may impact our results of operations and financial position.

21. *Risk Arising from Non-Compliance with Regulatory Requirements and Associated Penalties.*

Our Company is subject to various regulatory requirements under SEBI Listing Regulations, the Reserve Bank of India Act, and other applicable laws. There has been an instance of non-compliance, including delays in submission of reclassification applications seeking no-objection from the recognized stock exchange under Regulation 31A(3)(a) of the SEBI Listing Regulations, for which our Company was levied a fine of ₹1,35,700/- by SEBI and has since paid the fine. In addition, certain prescribed regulatory intimations and forms required to be submitted to the Reserve Bank of India were submitted after the stipulated timelines or remained pending as of the review date. Any future failure to comply with regulatory requirements, timely submissions, or other statutory obligations could result in additional penalties, fines,

restrictions on business operations, reputational harm, and could materially and adversely affect our Company's financial condition, results of operations, and prospects.

22. *If we are unable to maintain and enhance the 'Enbee' brand equity, the sales of our services may suffer which would have a material adverse effect on our financial condition and results of operations*

The brand we have developed, has over the years, significantly contributed to the success of our business. We also believe that maintaining and enhancing the 'Enbee' brand, is critical to maintaining and expanding our client base. Maintaining and enhancing our 'Enbee' brand may require us to make substantial investments in various areas, such as development, marketing and brand building activities, and these investments may not be successful. Further, in the event that we are not able to maintain the quality of our service or our goodwill is affected for any reason, our business and results of operations may be adversely affected. There can be no assurance that consumers will continue to be receptive to our brand.

In particular, as we expand into new market segments, there can be no assurance that consumers in these market segments will accept our brand. Further, our brand may also be adversely affected if our public image or reputation is tarnished by any negative publicity. Maintaining and enhancing our brand will depend largely on our ability to anticipate, gauge and respond in a timely manner to changing trends and consumer demands and preferences, and to continue to provide high quality services, which we may not do successfully. If we are unable to maintain or enhance our brand image, our results of operations and our business may be affected.

23. *Our results of operations are likely to vary from year to year and be unpredictable, which could cause the market price of the Equity Shares to be volatile.*

Our results of operations in any given year can be influenced by a number of factors, many of which are outside of our control and may be difficult to predict, including:

- a. our ability to acquire and retain clients for our services;
- b. maintaining high levels of customer satisfaction;
- c. costs relating to our operations;
- d. adhering to our high quality and process execution standards;
- e. pricing/interest rate policies introduced by our competitors;
- f. the timing and nature of, and expenses incurred in, our marketing efforts;
- g. recruiting, training, and retaining sufficient skilled technical and management personnel; and
- h. developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, and other internal systems.

All of these factors, in combination or alone could negatively impact our revenues and may cause significant fluctuations in our results of operations. This variability and unpredictability could materially and adversely affect our results of operations and financial condition.

24. *We have experienced negative cash flows in relation to our operating activities and investment activities in recent years/periods. Any negative cash flows in the future could adversely affect our results of operations and financial condition.*

We have experienced negative cash flows from operations in the recent past. Our cash flow for the Financial Years ended on March 31, 2025 and March 31, 2024, are set forth in the table below:

Particulars	For the year ended March 31	
	2025	2024
Net cash used in/generated from operating activities	(4,430.69)	(1,675.17)
Net cash used in investing activities	(0.01)	(164.80)
Net cash generated from financing activities	4,411.08	1,837.94

Any negative cash flows in the future could adversely affect our results of operations and financial condition.

25. *We do not own our Registered Office. Disruption of our rights as licensee/ lessee or termination of the agreement with our licensors/ lessors would adversely impact our business.*

The Registered Office of our Company is taken on lease for a fixed tenure from our Promoter. The lease is renewable on mutually agreed terms. Upon termination of the lease, we are required to return the said business premises to the Lessor/Licensor, unless renewed. There can be no assurance that the term of the agreements will be renewed and in the event the Lessor/Licensor terminates or does not renew the agreements on commercially acceptable terms, or at all, and we are required to vacate our offices, we may be required to identify alternative premises and enter into fresh lease or leave and license agreement. We may have to find new premises which may lead to higher costs. However, since the registered office premises are owned by our promoter/promoter group, we do not foresee any problem in renewal.

26. *Our Promoters, Directors and Key Managerial Personnel have interests in our Company other than reimbursement of expenses incurred or normal remuneration or benefits.*

Our Promoters, Directors and Key Managerial Personnel, may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, Equity Shares held by them or their relatives, their dividend or bonus entitlement, benefits arising from their directorship in our Company. Our Promoters, Directors and Key Managerial Personnel may also be interested to the extent of any transaction entered into by our Company with any other company or firm in which they are directors or partners.

There can be no assurance that our Promoters, Directors, Key Management Personnel will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters and members of our Promoter Group will continue to exercise significant control over our Company, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Directors and our Key Management Personnel may take or block actions with respect to our business, which may conflict with the best interests of our Company or that of minority shareholders.

27. *Our Promoter is not the original promoter of our Company and has acquired control of our Company on in 2016, therefore we cannot trace certain historical records of our Company.*

Our Promoter is not the original Promoter of the Company and has acquired control of our Company in the year 2016. In view of the change in management, we are unable to access certain historical records of the Company, such as prospectus issued during the initial public offer of the Company. Accordingly, we have relied on other documents, including annual returns, directors' report, the statutory register of members of the Company, minutes of the meetings of the Board of Directors and Shareholders. We cannot assure you that on account of any of the missing records, we will not be subject to any penalties imposed by the relevant regulatory authority in this respect.

28. *We have in past entered into related party transactions and we may continue to do so in the future.*

We have entered into several related party transactions with our Promoters, individuals and entities forming a part of our promoter group relating to our operations. In addition, we have in the past also entered into transactions with other related parties.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

29. *As on the date of the Letter of Offer, no investor complaint is outstanding on SCORES.*

As on the date of the Letter of Offer, no investor complaint is outstanding on SCORES. But there is no assurance that in future the Company will be able to resolve each and every investor complaint received on SCORES. For detailed

information of the no. of Investor Complaints received and resolved by the Company, kindly refer to page 67 of this letter of letter.

30. Our Company has taken certain unsecured loans from our Promoter and members of our Promoter Group, which may be recalled at any time.

As on December 31, 2025, our Company has outstanding unsecured loans aggregating to ₹ 5126.21 Lakhs (including interest thereon), which have been extended by our Promoter and members forming part of our Promoter Group and may be recalled by them at any time. In the event, any of such lenders seek a repayment of any these loans, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. If we are unable to arrange for any such financing arrangements, we may not have adequate working capital to undertake new projects or complete our ongoing projects. Therefore, any such demand may adversely affect our business, financial condition and results of operations.

31. Our future fund requirements, in the form of further issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the Shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing Shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing Shareholders. If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

32. Our success largely depends upon the knowledge and experience of our Promoters, Directors and our Key Managerial Personnel. Loss of any of our Directors and key managerial personnel or our ability to attract and retain them could adversely affect our business, operations and financial condition.

The growth and success of our Company’s future significantly depends upon the experience and continued services and the management skills of our Key Managerial Personnel and the guidance of our Directors for development of business strategies, monitoring its successful implementation and meeting future challenges. We believe the expertise, experience and continued efforts of our Key Managerial Personnel and their inputs are valuable to for the operations of our Company. Our future success and growth depend largely on our ability to attract, motivate and retain the continued service of our highly skilled management personnel. Our Company has never been faced with a challenge of high rate of attrition of our Key Management Personnel in the past, however, any attrition of our experienced Key Managerial Personnel, would adversely impact our growth strategy. We cannot assure you that we will be successful in recruiting and retaining a sufficient number of personnel with the requisite skills to replace those Key Managerial Personnel who leave. In the event we are unable to motivate and retain our key managerial personnel and thereby lose the services of our highly skilled Key Managerial Personnel may adversely affect the operations, financial condition and profitability of our Company and thereby hampering and adversely affecting our ability to expand our business. For further details on our Directors and Key Managerial Personnel, please refer to the chapter titled — “**Our Management**” on page 58 of the Letter of Offer.

33. The Statutory Auditors have included certain qualifications in their reporting under the Companies (Auditors Report) Order, 2020 (“CARO 2020”) in relation to the audit of financial statements for the Fiscal 2025 and 2024.

Our Statutory Auditors have included certain qualifications in their reporting under CARO 2020. The details of the same have been provided below:

		<p>*Amount overdue more than 6 months of date of reporting towards TDS.</p> <p>**Amount overdue more than 6 months of date of reporting towards TDS, Self-Assessment Tax for AY 24-25 and PTRC.</p>

There can be no assurance that our Statutory Auditors will not include such comments in the CARO 2020 reports in the future, or that such qualification will not affect our financial results in future fiscal periods. Investors should consider these matters and related remarks in evaluating our financial condition and results of operations. Any such qualifications in the auditors' report on our financial statements in the future may also adversely affect the trading price of our Equity Shares.

34. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive and we are required to obtain consents from certain of our lenders prior to the declaration of dividend as per the terms of the agreements executed with them. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past, and there can be no assurance that our Company will declare dividends in the future.

35. *As the securities of our Company are listed on BSE Limited, our Company is subject to certain obligations and reporting requirements under the SEBI Listing Regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.*

The Equity Shares of our Company are listed on BSE, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI Listing Regulations, as well as requirements under the Companies Act for a listed Company. There have been instances in the past wherein, our Company has failed to comply with the requirements of the SEBI Listing Regulations in a timely manner. Further, our Company has inadvertently failed to ratify certain related party transactions undertaken with Promoters and members of Promoter Group, in compliance with Regulation 23 of the SEBI Listing Regulations.

Our Company endeavours to comply with all such obligations/reporting requirements, there may be non-disclosures/delayed/erroneous disclosures and/or any other violations which might have been committed by us, and the same may result into Stock Exchange and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and Rules and Regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

OBJECTS OF THE ISSUE

36. *We have not identified any alternate source of financing for the Objects of the Issue, and any failure or delay in raising funds through this Issue could adversely affect our growth plans.*

We have not identified any alternate source of funding for the purposes set out in the section titled "*Objects of the Issue*" beginning on page 49 of the Letter of Offer. Any failure or delay in raising the funds proposed to be raised through this Issue may delay the implementation schedule of our stated objects and could adversely affect our business operations and growth plans.

37. *Our funding requirements and proposed utilization of the Net Proceeds are based on management estimates, have not been independently appraised, and may change due to factors beyond our control.*

We intend to utilise the Net Proceeds for the purposes described in the section titled "*Objects of the Issue*" beginning on page 49 of the Letter of Offer. These funding requirements have not been independently appraised and are based on our

current business plan, management estimates, prevailing market conditions, and other commercial considerations, all of which are subject to change. The utilisation of the Net Proceeds will be at the discretion of our Board of Directors and may be revised in response to changes in our business environment or operational needs. Our internal estimates may differ from fair market values or from amounts determined through an independent appraisal, which could result in rescheduling, reallocation, or modification of our utilisation plan.

EXTERNAL RISKS

38. *Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and International Financial Reporting Standards (“IFRS”), which investors may be more familiar with and consider material to their assessment of our financial condition.*

Our summary statements of assets and liabilities and summary statements of profit and loss (including other comprehensive income), cash flows and changes in equity, as per the Financial Statements, have been prepared in accordance with the Ind GAAP notified under the Companies Act, 2013, read with the applicable Rules, the SEBI Circular and the Prospectus Guidance Note.

We have not attempted to quantify the impact of Ind AS, US GAAP, IFRS or any other system of accounting principles on the financial data included in this Letter of Offer, nor do we provide a reconciliation of our financial statements to those of Ind AS, US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Financial Information included in this Letter of Offer will provide meaningful information is entirely dependent on the reader’s level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

39. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors’ reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders’ equity and the price of our Equity Shares.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our products or services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

40. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India;
- prevailing income conditions among Indian consumers and Indian corporations;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- variations in exchange rates;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- prevailing regional or global economic conditions; and
- other significant regulatory or economic developments in or affecting India

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

41. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards ("ICDS"), thereby creating a new framework for the computation of taxable income. The ICDS became applicable from the assessment year for Fiscal 2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

- the General Anti Avoidance Rules ("**GAAR**") have been made effective from April 01, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.
- a comprehensive national GST regime that combines taxes and levies by the Central and State Governments into a unified rate structure, which came into effect from July 01, 2017. We cannot provide any assurance as to any aspect of the tax regime following implementation of the GST. Any future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. If, as a result of a particular tax risk materializing, the tax costs associated with certain transactions are greater than anticipated, it could affect the profitability of such transactions.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law,

regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Any increase in taxes and levies, or the imposition of new taxes and levies in the future, could increase the cost of production and operating expenses. Taxes and other levies imposed by the central or state governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. The central and state tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the central or state governments may adversely affect our competitive position and profitability.

42. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

These could include further falls in Stock Exchange's indices and greater volatility of markets in general due to the increased uncertainty. These and other related events could have a significant impact on the global credit and financial markets as a whole, and could result in reduced liquidity, greater volatility, widening of credit spreads and a lack of price transparency in the global credit and financial markets. There are also concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

43. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

44. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favorable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

45. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

46. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the prices of the Equity Shares.

The recent outbreak of Novel Coronavirus has significantly affected financial markets around the world. Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and

restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

Risks Related to the Issue

47. Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.

Our company will not distribute the Letter of Offer, Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.

Our company will dispatch the Letter of Offer, Letter of Offer, Rights Entitlement Letter and Application Form (the "**Offering Materials**") to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

48. SEBI has by way of circulars dated January 22, 2020, May 6, 2020, January 19, 2021 and October 01, 2021, March 11, 2025 and Amendment Regulation, 2025, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in the Letter of Offer.

SEBI has by way of circulars dated January 22, 2020, May 6, 2020, January 19, 2021 and October 01, 2021, March 11, 2025 and Amendment Regulation, 2025, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in the Letter of Offer.

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021, October 01, 2021 and Amendment Regulation on March 03, 2025 and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see "**Terms of the Issue**" on page 69 of this Letter of Offer.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, Our company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialized form; and (ii) a demat suspense escrow account opened by Our company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with Our company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

49. You may not receive the Equity Shares that you subscribe to in the Issue until several days after the Issue closes, which may subject you to market risk.

The Equity Shares that you subscribe to in this Issue may not be credited to your demat account until a few days after the Issue Closing Date. You can trade such Equity Shares only after receipt of listing and trading approvals from the Stock Exchange. There can be no assurance that the Equity Shares allotted to you will be credited within the expected timeframe, or that trading will commence promptly, which may expose you to market risk during this interim period.

50. There is no assurance that the Equity Shares offered through this Rights Issue will be listed in a timely manner or at all, which may restrict your ability to dispose of, or realize value from, such Equity Shares.

The Equity Shares proposed to be issued pursuant to this Rights Issue will be listed on the BSE Limited (Stock Exchange) only after the relevant approvals have been obtained and the Equity Shares have been allotted. There may be delays in listing or trading approvals for various reasons, including delays in finalizing the basis of allotment, technical issues with filings, or delays at the level of stock exchanges or depositories. Any delay or failure in obtaining the listing and trading approvals would restrict the ability of the holders to trade the Equity Shares issued in this Rights Issue, and may adversely affect the market price of such Equity Shares. Further, past trading prices of our Equity Shares may not be indicative of the future trading prices.

51. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under Indian law, specifically the Companies Act, 2013, our Company is generally required to offer existing equity shareholders a right to subscribe to new shares (pre-emptive rights) in proportion to their holdings. However, such rights may not be available to shareholders in jurisdictions outside India if compliance with local regulations (such as filing a registration statement or offer document) is required. We may, at our discretion, choose not to undertake such filings. Accordingly, shareholders in such jurisdictions may not be able to exercise their rights, which could result in dilution of their shareholding.

52. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

53. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

54. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

55. *Investors shall not have the option to receive Rights Equity Shares in physical form.*

In accordance with the provisions of Regulation 77A of the SEBI (ICDR) Regulations read with SEBI Rights Issue Circular, the credit of Rights Entitlement and Allotment of Rights Equity Shares shall be made in dematerialised form only. Investors will not have the option of getting the allotment of Equity Shares in physical form. In accordance with the SEBI Circular bearing reference number 'SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020', the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Equity Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Equity Shareholders are requested to furnish the details of their demat

account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least 1 (One) day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares). For further details, please refer to the section titled “*Terms of the Issue*” on page 69 of the Letter of Offer.

56. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and the Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee prior to the Issue Closing Date. Further, in case the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see “*Terms of the Issue*” on page 69 of the Letter of Offer.

57. *Your holdings may be diluted by additional issuances of equity by us, which may adversely affect the market price of our Equity Shares.*

Any future issuance of our Equity Shares may dilute the holdings of investors in our Equity Shares, which could adversely affect the market price of our Equity Shares. Additionally, sales of a large number of our Equity Shares by our principal shareholder could adversely affect the market price of our Equity Shares. The perception that any such sale may occur could also adversely affect the market price of our Equity Shares.

58. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the Regulation 87 of SEBI (ICDR) Regulations, 2018, the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Right Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political, or economic conditions or other events like force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant’s decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. The occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence.

59. *Investors will be subject to market risks until the Rights Issue Shares credited to their demat accounts are listed and permitted to trade.*

Investors can start trading the Rights Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Rights Equity Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Rights Equity Shares allocated to an Investor will be credited to the Investor’s demat account or that trading in the Equity Shares will commence in a timely manner.

60. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares, and the value of our investment portfolio.*

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. Prices of listed securities in India have, in the past, experienced substantial fluctuations due to domestic and global factors such

as changes in monetary policy, interest rate movements, inflationary trends, and geopolitical developments. As we are primarily engaged in making and holding investments in listed and unlisted securities, volatility in the Indian securities markets can directly impact the market value of our investment portfolio and, consequently, our net worth and financial performance. In the past, stock exchanges in India have imposed trading restrictions, limitations on price movements, and revised margin requirements. Any such future volatility or restrictions could adversely affect the market price and liquidity of our Equity Shares.

61. *The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.*

The Issue Price for the Rights Equity Shares has been determined based on various qualitative and quantitative factors and may not be reflective of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could fluctuate significantly after listing of the Rights Equity Shares and may fall below the Issue Price. There is no assurance that investors will be able to sell their Equity Shares at or above the Issue Price. Factors that may influence the trading price of our Equity Shares include:

- a) changes in the market value of our investment portfolio and its impact on our financial results;
- b) variations in our quarterly earnings, net asset value, or other key performance indicators;
- c) changes in revenue or earnings estimates by market analysts, if any;
- d) market speculation or media coverage regarding our Company or the industries we invest in;
- e) general market and economic conditions in India and globally; and
- f) regulatory, fiscal, or monetary policy developments impacting capital markets.

62. *Investors may be subject to capital gains tax in India on the sale of our Equity Shares.*

Under current Indian tax laws, unless specifically exempt, capital gains arising from the sale of equity shares of an Indian company are taxable in India. Gains on the sale of listed equity shares through a recognised stock exchange, where such shares are held for more than 12 months, are treated as long-term capital gains and are taxable at applicable rates, in addition to the payment of securities transaction tax (“STT”) collected by the stock exchange. Gains on listed equity shares held for 12 months or less are treated as short-term capital gains and are taxable at applicable rates. Tax exemptions may be available under an applicable double taxation avoidance agreement; however, most Indian tax treaties do not restrict India’s right to tax capital gains. Consequently, non-resident investors may be liable for tax in India as well as in their country of residence. The tax consequences described above are based on current law and may change in the future, which could adversely affect the post-tax returns from your investment in our Equity Shares.

SECTION VI- GOVERNMENT APPROVALS

GOVERNMENT AND OTHER STATUTORY APPROVALS

Our Company has obtained necessary consents, licenses, permissions and approvals from governmental and regulatory authorities that are material for carrying on our present business activities. Some of the approvals and licenses that our Company requires for our business operations may expire in the ordinary course of business, and our Company will apply for the renewal from time to time.

We are not required to obtain any licenses or approvals from any government or regulatory authority for the objects of this Issue. For further details, please refer to the chapter titled "*Objects of the Issue*" at page 49 of the Letter of Offer.

OTHER REGULATORY AND STATUTORY DISCLOSURES

Authority for the Issue

The Issue has been authorised by a resolution of our Board of Directors passed at its meeting held on October 08, 2025, pursuant to Section 62(1)(a) and other applicable provisions of the Companies Act, 2013.

The Draft Letter of Offer has been approved by the Board of Directors pursuant to its resolution dated October 08, 2025. The terms and conditions of the Issue including the Rights Entitlement, Issue Price, Record Date, timing of the Issue and other related matters, have been approved by a resolution passed by Board of Director on February 25, 2026.

The Board of Directors, in its meeting held on February 25, 2026 has resolved to issue the Rights Equity Shares to the Eligible Equity Shareholders, at ₹ 1/- per Rights Equity Share aggregating up to ₹ 12,005.00 lakh and the Rights Entitlement as 21 (Twenty One) Rights Equity Share for every 10 (Ten) fully paid-up Equity Share, held as on the Record Date. The Issue Price is ₹ 1/- per Rights Equity Share and has been arrived at by our Company in consultation with the Board/Rights Issue Committee.

**Assuming full subscription in the Issue.*

Rationale for the Issue Price:

The Issue Price of ₹1/- (Rupee One only) per Equity Share has been determined by the Board of Directors of the Company in accordance with the provisions of the Companies Act, 2013 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (“SEBI ICDR Regulations”).

The Equity Shares are being offered at par, i.e., at a price equal to their face value of ₹1 per Equity Share. Pursuant to the applicable provisions governing a rights issue, a listed company is permitted to determine the issue price, subject to such price not being less than the face value of the Equity Shares. The SEBI ICDR Regulations do not prescribe any specific pricing formula or valuation methodology for determination of the issue price in a rights issue.

The Issue Price has been determined by the Board after taking into consideration, inter alia:

- the objects of the Issue and the proposed utilisation of the Net Proceeds;
- the Company’s funding requirements and overall capital structure;
- its financial position and liquidity requirements;
- prevailing market conditions and the trading price of the Equity Shares; and
- the objective of ensuring equitable participation by all Eligible Equity Shareholders and facilitating subscription to the Rights Issue.

The Board is of the view that pricing the Issue at par is appropriate in the present circumstances, having regard to the Company’s immediate capital requirements and the need to provide an opportunity to all Eligible Equity Shareholders to subscribe to the Rights Equity Shares on a uniform basis without any premium.

Accordingly, the Issue Price of ₹1 per Equity Share is justified and is in compliance with applicable law.

Our Company has received In-principle approval from BSE in accordance with Regulation 28(1) of the SEBI LODR Regulations for listing of the Rights Equity Shares to be allotted in this Issue pursuant to its letter dated February 24, 2026 . Our Company will also make application to BSE to obtain its trading approval for the Rights Entitlements as required under the SEBI ICDR Master Circular.

Our Company has been allotted the **ISIN: INE993I20037** for the Rights Entitlements to be credited to the respective demat accounts of Allottees. For details, see “*Terms of the Issue*” beginning on page 69 of the Letter of Offer.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the Foreign Investment Promotion Board. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs through the FDI Policy (defined below). The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DPIIT issues an updated circular. Further, the sectoral cap applicable to the sector in which our Company operates is 100% which is permitted under the automatic route. The Government has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Policy, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“**OCBs**”) have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for the issue as an incorporated non-resident must do so in accordance with the FDI Policy and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals. The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Letter of Offer.
