SUMMARY OF THE INDUSTRY IN WHICH OUR COMPANY OPERATES

Non-Banking Financial Companies (“NBFCs”) are financial institutions engaged in the business of providing loans and advances, acquisition of securities, leasing, hire-purchase, and other financial services, and are regulated by the Reserve Bank of India under the Reserve Bank of India Act, 1934; NBFCs play a complementary role to banks by catering to underserved and unbanked segments of the economy, including micro, small and medium enterprises (“MSMEs”), retail borrowers and rural households, thereby contributing to financial inclusion and credit intermediation in the Indian financial system.

Global Market

The global Non-Banking Financial Companies (“NBFC”) sector constitutes a significant component of the broader financial services ecosystem, with NBFCs and similar non-bank financial intermediaries accounting for approximately 15% of total global financial system assets and playing a critical role in credit intermediation, particularly in emerging markets, where they contribute nearly 25% of total lending activities; the global NBFC market size was estimated at approximately USD 235.4 billion in 2026 and is projected to reach approximately USD 441.9 billion by 2035, growing at a compound annual growth rate (“CAGR”) of approximately 6.5% during the forecast period, driven by increasing adoption of digital lending platforms, expansion of unsecured retail credit, and growing participation of institutional investors, with nearly 45% of investors increasing exposure to NBFC debt instruments between 2023 and 2025, while globally, non-bank or “shadow banking” entities account for over 45% of total non-bank financial assets, reflecting their systemic importance; further, developed markets such as the United States have witnessed significant penetration of non-bank lenders, which account for approximately 50% of mortgage originations and a substantial share of consumer lending, while digital NBFCs and fintech-led platforms process a majority of unsecured loan applications through automated underwriting systems, thereby indicating an ongoing structural shift towards technology-driven credit intermediation across global markets.

Indian Market

The Non-Banking Financial Company (“NBFC”) sector in India has emerged as a systemically important segment of the financial system, demonstrating sustained growth in scale and credit intermediation, with the aggregate balance sheet expanding by approximately 18.9% year-on-year to ₹61.09 lakh crore as at March 31, 2025, and further increasing to approximately ₹65.51 lakh crore by September 2025, primarily driven by robust growth in loans and advances; total gross advances of NBFCs increased to approximately ₹48.39 lakh crore as at March 2025 from ₹40.53 lakh crore in the previous year, reflecting strong credit demand across retail, industry and services segments, with industry and retail together accounting for over 81% of total credit, while the services segment recorded the highest growth of approximately 29.8% year-on-year, indicating diversification of lending portfolios; the sector continues to exhibit improving asset quality, with gross non-performing assets (“GNPA”) declining to approximately 2.9% as at March 2025, although certain segments such as microfinance remain under stress, and overall growth in NBFC credit is expected to moderate to approximately 13%–15% in FY2025 and FY2026, supported by sustained demand in retail and MSME financing, thereby underscoring the continued relevance of NBFCs in addressing credit gaps and supporting economic activity in India.

Road Ahead

A disciplined investment framework is essential for navigating NBFCs in 2026. Investors should prioritise lenders with stable asset quality, strong provisioning, diversified low-cost liabilities and a portfolio skewed toward secured products such as home loans, LAP, vehicles and gold finance. Robust Tier-1 capital and prudent regulatory compliance further enhance resilience. Against this backdrop, NBFCs remain an attractive long-term theme, but the year calls for selective exposure rather than broad participation.

The strongest opportunities lie in gold-loan NBFCs with high growth and secured collateral, large diversified players with superior ALM and consistent profitability and housing finance/LAP lenders benefiting directly from lower rates and improved affordability. In contrast, microfinance NBFCs and smaller unsecured-focused lenders warrant caution due to elevated credit risks and weaker buffers. As credit penetration deepens and rate cuts transmit across the system, the sector will stay central to India's lending ecosystem—but outperformance will come only from owning the right winners.

An investment in equity shares involves a high degree of risk. You should carefully consider all the information in this Letter of Offer, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only ones relevant to us or our Equity Shares, the industry in which we operate or to India. Additional risks and uncertainties, not currently known to us or that we currently do not deem material may also adversely affect our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment.

*Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. To obtain a better understanding, you should read this section in conjunction with the chapters titled “**Our Business**”, “**Industry Overview**” and “**Management’s Discussion and Analysis Report**” on page nos. 65, 58 and 135 respectively of this Letter of Offer as well as other financial information contained herein.*

The following factors have been considered for determining the materiality of Risk Factors:

- *Some risks may not be material at present but may have material impact in future.*

*The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of our Company used in this section is derived from our Financial Information prepared in accordance with IND AS and the Companies Act. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “**Definitions and Abbreviations**” on page no. 5 of this Letter of Offer. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.*

The Letter of Offer also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in the Letter of Offer.

A. INTERNAL RISK FACTORS:

- 1. As an NBFC, we have to adhere to several regulatory norms prescribed by RBI from time to time. Any non-compliance with such norms or any adverse change in the norms could negatively affect our Company’s operations, business, financial condition and the trading price of Equity Shares.***

As a Non - Banking Financial Company (“NBFC”), we are required to comply with various regulatory norms, directions, circulars and guidelines prescribed by the Reserve Bank of India (“RBI”) from time to time. Any non-compliance with such regulatory requirements or any adverse changes in the applicable regulatory framework may have a material adverse effect on our business operations, financial condition, results of operations and the trading price of our Equity Shares.

NBFCs in India are subject to extensive regulation and supervision by the RBI, and our operations are dependent on obtaining and maintaining the necessary approvals, registrations, licenses and permissions, including the certificate of registration to carry on business as an NBFC. Such approvals and registrations are required to be maintained and, where applicable, renewed from time to time, and are subject to ongoing compliance with prescribed conditions. In the past, there have been instances of delays in certain RBI compliances and filings and occasional inadvertent errors in regulatory submissions. However, no penalties have been imposed by the RBI on our Company to date in this regard. Nevertheless, we cannot assure that any past or future delays, omissions or inadvertent errors in filings or compliances will not attract penalties, regulatory action or other adverse observations from the RBI or any other regulatory authority. Further, the regulatory framework governing NBFCs is dynamic and may be amended, modified or tightened by the RBI from time to time. We may not always be able to anticipate or fully adapt to such changes in a timely manner. Any failure to comply with applicable laws, regulations, guidelines or any revised norms, including prudential, capital adequacy,

governance or reporting requirements, could result in regulatory action, including penalties, restrictions on our operations, suspension or cancellation of our registration, or other corrective measures. In the event that we fail to obtain, maintain or renew any required approvals, licenses or registrations in a timely manner, or at all, or fail to meet the prescribed regulatory norms and criteria, our business, operations, profitability and reputation may be adversely affected.

2. *We operate in a highly competitive industry and our inability to compete effectively may adversely affect our business.*

We operate in a highly competitive industry. Given the diversity of our businesses, and the services offered by us, we face competition from the full spectrum of public sector banks, private sector banks (including foreign banks), financial institutions, captive finance affiliates of players in various industries, small finance banks and other NBFCs who are active in SME, retail and individual lending. Many of our competitors may have greater resources than we do, may be larger in terms of business volume and may have significantly lower cost of funds compared to us. They may also have greater geographical reach, long-standing partnerships and may offer their customers other forms of financing that we may not be able to provide. Competition in our industry depends on, amongst others, the ongoing evolution of government and regulatory policies, the entry of new participants and the extent to which there is consolidation among banks and financial institutions in India. We cannot assure you that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in our increasingly competitive industry and our inability to compete effectively may adversely affect our business.

3. *Our business will require substantial funds, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.*

Our liquidity and profitability are, in large part, dependent upon our timely access to, and costs associated with raising capital including both debt and equity. Our business depends and will continue to depend on our ability to access diversified low-cost funding sources. As a financial services company, we face certain additional regulatory restrictions on our ability to obtain financing from banks. Further, under Indian Law, foreign investors are subject to investment restrictions that may limit our ability to attract foreign investors or capital from overseas investors.

Pursuing our growth strategy will have an impact on our long term capital requirements. With the growth of our business, we may be increasingly reliant on funding from debt capital markets. The market for such funds is competitive and our ability to obtain funds at competitive rates will depend on various factors. If we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors, including the regulatory environment and policy initiatives in India, lack of liquidity in the market, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition. If we are unable to obtain adequate financing or financing on terms satisfactory to us and in a timely manner, our ability to grow or support our business and to respond to business challenges could be limited and our business prospects, financial condition and results of operations would be materially and adversely affected.

4. *We are affected by volatility in interest rates for both our lending and fund raisings operations, which could cause our net interest income to decline and adversely affect our results of operations and profitability*

A significant component of our revenue is the interest on loans and other financing activity we receive from the loans we disburse. Our net interest margins are affected by any volatility in interest rates in our lending operations. Interest rates are highly sensitive to many factors beyond our control, including competition from other banks and NBFCs, the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors, which have historically generated a relatively high degree of volatility in interest rates in India. Persistently high inflation in India may discourage the Government from implementing policies that would cause interest rates to decrease. Moreover, if there is an increase in the interest rates we pay on our borrowings that we are unable to pass to our customers, we may find it difficult to compete with our competitors, who may have access to funds at a lower cost or lower cost deposits. To the extent our borrowings are linked to market interest rates, we may have to pay interest at a higher rate than lenders that borrow only at fixed interest rates. Further, our ability to pass on any increase in interest rates to borrowers may also be constrained by regulations implemented by the Government or the RBI. In a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, it could lead to a reduction in our net interest income and net interest margin.

- 5. *We depend on the accuracy and completeness of information about customers and counterparties for certain key elements of our credit assessment and risk management process. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.***

In deciding whether to extend credit or enter into other transactions with customers, for certain key elements of the credit assessment process, we rely on information furnished to us by or on behalf of customers (including in relation to their financial transactions and past credit history). We may also rely on certain representations from our customers as to the accuracy and completeness of that information. For ascertaining the creditworthiness and encumbrances on collateral we may depend on the respective registrars and sub-registrars of assurances, credit information companies or credit bureaus, and on independent valuers in relation to the value of the collateral, and our reliance on any misleading information given, may affect our judgement of credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, prospects, results of operations and financial condition. We may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation. Our risk management measures may not be adequate to prevent or deter such activities in all cases, which may adversely affect our business prospects, financial condition and results of operations.

- 6. *High levels of customer defaults or delays in repayment of loans could adversely affect our business, financial condition and results of operations.***

Our business involves lending money and accordingly we are subject to customer default risks including default or delay in repayment of principal and/ or interest on our loans. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted. Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to continuously monitor the loan contracts, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition.

- 7. *Our Company's inability to obtain, renew or maintain the statutory and regulatory permits and approvals which are required to operate its existing or future businesses may have a material adverse effect on its business, financial condition, cash flows and results of operations.***

NBFCs in India are subject to regulations and supervision by the RBI. In addition to the numerous conditions required for the registration as an NBFC with the RBI, we are also required to comply with certain other regulatory requirements for its business imposed by the RBI. In the future, there could be circumstances where our Company may be required to renew applicable permits and approvals and obtain new permits and approvals for its current and any proposed operations or in the event of a change in applicable law and regulations. There can be no assurance that RBI or other relevant authorities will issue any such permits or approvals in the time-frame anticipated by our Company, or at all. Failure by our Company to renew, maintain or obtain the required permits or approvals may result in an interruption of its operations and may have a material adverse effect on its business, financial condition, cash flows and results of operation.

- 8. *We are exposed to operational and credit risks which may result in NPAs, and we may be unable to control or reduce the level of NPAs in our portfolio.***

Our Company's inability to control the number and value of its NPAs may lead to deterioration of the quality of its loan portfolio and may adversely impact its business. Further, if our customers default in their repayment obligations, our business, results of operations, financial condition and cash flows may be adversely affected. As on date, the Company's Non-Performing Assets (NPA) amount to Rs. 1,73,77,355.00/-

- 9. *We may face asset-liability mismatches, which could affect our liquidity and consequently may adversely affect our operations and profitability.***

Assets and liability mismatch ("ALM") represents a situation when financial terms of an institution's assets and liabilities do not match. ALM is a key financial parameter indicative of an NBFC's performance. We cannot assure you that we will be able to maintain a positive ALM always. We may rely on funding options with short term maturity periods for extending long term loans, which may lead to a negative ALM. Further, mismatches between our assets and liabilities are compounded in case of prepayment of financing facilities we grant to customers. Any mismatch in our ALM, may lead to a liquidity risk and have an adverse effect on our business prospects, financial condition, results of operations and profitability.

10. Our Investments and Trading Business may report gross losses. Sustained losses in the future from this vertical would lead to weaker financial performance may affect our sustainability.

Apart from our primary business of providing loans and services, we have been and will continue to be involved in the business of investing and trading in securities of all kind. We propose to improve our internal systems including but not limited to Trading Strategies, Financial Discipline and better utilization of our fund-based portfolio. But there can be no assurance that we would not incur losses in the future especially considering the high volatile nature of capital markets in India in the recent past. Sustained losses in the future from this vertical would lead to weaker financial performance and affect our sustainability.

11. Any inability on our part to effectively utilize the Issue Proceeds could adversely affect our financial results. The objects of the Issue are based on the internal estimates of our management and have not been appraised by any bank or financial institution.

The funds raised under this Issue will be to augment our capital our capital base and meet our funding requirements for increasing our operational scale with respect to our NBFC activities and General Corporate purposes. The objects of the Issue are based on management estimates and have not been appraised by any bank or financial institution. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financial results. Utilization of Issue proceeds would be disclosed to our Company's shareholders in the manner required under the SEBI LODR Regulations. For further details, please see to the section titled "**Objects of the Issue**" on page no. 48 of this Letter of Offer.

12. Security breaches of customers' confidential information that we store may harm our reputation and expose us to liability.

We store customers' bank information, credit information and other sensitive data. Any accidental or wilful security breaches or other unauthorized access could cause the theft and criminal use of this data. Security breaches or unauthorized access to confidential information could also expose us to liability related to the loss of the information, time-consuming and expensive litigation and negative publicity. If security measures are breached because of third party action, employee error, malfeasance or otherwise, or if design flaws in our software are exposed and exploited, and, as a result, a third party obtains unauthorized access to customer data, our relationships with customers will be severely damaged, and we could incur significant liability. Further, we engage with certain third-party service providers, and although our contracts with them restrict the usage of client data and impose protective precautions, there can be no assurance that they will abide by such contractual terms or that the contracts will be found to be in compliance with data protection laws. Because techniques used to obtain unauthorized access or to sabotage systems change frequently and generally are not recognized until they are launched against a target, we and our third-party hosting facilities may be unable to anticipate these techniques or to implement adequate preventative measures. In addition, we may be required under applicable regulations to notify individuals of data security breaches involving their personal data. These mandatory disclosures regarding a security breach are costly to implement and often lead to widespread negative publicity, which may cause customers to lose confidence in the effectiveness of our data security measures. Any security breach, whether actual or perceived, would harm our reputation, and result in lost customers, which could in turn have a material adverse effect on our business, prospects, results of operations, financial condition or cash flows.

13. If we are unable to comply with the capital adequacy requirements stipulated by the RBI in connection with our lending business, our business, results of operations and cash flows may be materially and adversely affected.

Our lending business, is subject to various regulations relating to the capital adequacy of NBFCs, which determine the minimum amount of capital we are required to maintain. There can be no assurance that we will be able to maintain CRAR within the regulatory requirements. Further, as we grow our lending business loan portfolio, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to such business. There can be no assurance that we will be able to raise adequate additional capital in the future on favourable terms, or at all. This could result in non-compliance with applicable capital adequacy ratios, which could have a material adverse effect on our business, results of operations and cash flows. Also, there is no assurance that RBI will not take any action for breaches in capital adequacy norms by our Company in the future. This could materially adversely affect our business, prospects, results of operations, financial condition and cash flows and could impair our ability to continue current operations and in extreme case, may lead to suspension/ cancellation/ withdrawal of our license to operate as an NBFC.

As on 31st March 2026, the Company's Capital to Risk Weighted Assets Ratio (CRAR) stands at 130%, comprising entirely of Tier I Capital amounting to Rs. 1,450.98 lakhs. The Company does not have any Tier II Capital. The Total Risk Weighted Assets as on that date are Rs. 1,113.06 lakhs.

Further, the Company is classified as a Non-Deposit Taking NBFC with an asset size below ₹100 crore. Accordingly, provisions relating to Liquidity Coverage Ratio (LCR) are not applicable as per applicable RBI guidelines.

14. Any failure or severe weakness in our internal controls system could result in operational errors or fraud, affecting our profitability and reputation materially and negatively.

We have appropriate internal controls that are commensurate with the size and complexity of our operations. Our internal control procedures are equipped to conduct continuing assessments of the sufficiency and effectiveness of internal controls to ensure that business units follow our internal risk policies, compliance requirements, and internal circular guidelines. While we test and update our internal controls systems on a regular basis, we are nevertheless susceptible to operational risks deriving from the potential inadequacy or failure of internal processes or systems, and our measures may not be enough to ensure effective internal controls in all instances.

Our management information systems and internal control procedures for monitoring our operations and overall compliance may not catch every instance of non-compliance or suspicious transaction. If internal control deficiencies are discovered, our actions may not be sufficient to remedy the situation. We encounter operational risks and there may be losses as a result of internal control system failures or shortcomings. Deal errors, pricing problems, erroneous financial reporting, fraud, and the loss of essential systems and infrastructure may all result from failures in our internal controls systems. Such incidents may have a negative impact on our reputation, business, and operational outcomes. Internal control failures or material deficiencies can also lead to fraud situations. There can also be no assurance that we would be able to prevent frauds in the future or that our existing internal mechanisms to detect or prevent fraud will be sufficient. Any fraud discovered in the future may have an adverse effect on our reputation, business, results of operations and financial condition.

15. Our inability to completely and timely detect money laundering and other illicit actions may expose us to extra responsibility and affect our business and reputation.

In India, we must follow all applicable anti-money laundering ("AML") and anti-terrorism laws and regulations. We bear the risk of failing to follow the statutory know your customer ("KYC") requirements, as well as fraud and money laundering by dishonest customers, in the ordinary course of our business. Despite having internal rules, processes, and controls in place to prevent and identify any AML activity and maintain KYC compliance, we cannot guarantee that we will be able to entirely manage instances of any possible or attempted violation. Any failure or ineffectiveness of our control system to detect such activities completely and immediately may subject us to regulatory action, including fines and penalties, and have a negative impact on our business and reputation.

16. Our results of operations are likely to vary from year to year and be unpredictable, which could cause the market price of the Equity Shares to be volatile.

Our results of operations in any given year can be influenced by a number of factors, many of which are outside of our control and may be difficult to predict, including:

- a. our ability to acquire and retain clients for our services;
- b. maintaining high levels of customer satisfaction;
- c. costs relating to our operations;
- d. adhering to our high quality and process execution standards;
- e. pricing/ interest rate policies introduced by our competitors;
- f. the timing and nature of, and expenses incurred in, our marketing efforts;
- g. recruiting, training, and retaining sufficient skilled technical and management personnel; and
- h. developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, and other internal systems.

All of these factors, in combination or alone could negatively impact our revenues and may cause significant fluctuations in our results of operations. This variability and unpredictability could materially and adversely affect our results of operations and financial condition.

17. Our inability to assess, monitor and manage risks inherent in our business may have an adverse effect on our business and results of operations.

The effectiveness of our risk monitoring and management is limited by the quality, timeliness and availability of data required for the assessment of the risks such as, information regarding market, customers and proposed policy changes. Such data may not be accurate or complete in all the cases thereby affecting our ability to access, monitor and manage risks. Our risk management techniques may not be fully effective in mitigating all the types of risks that we may face. Largely, our risk management is based on the study of historical market behavior and as a result these studies may not predict the future risks exposures. Our risk management policies therefore may not adequately address unidentified or unanticipated risks in all cases. Any inadequacy in the timely assessment and mitigation of risks may have an adverse effect on our business and results of operations.

18. We have in past entered into related party transactions and we may continue to do so in the future.

We have entered into several related party transactions with our promoters, individuals and entities forming a part of our promoter group relating to our operations. In addition, we have in the past also entered into transactions with other related parties.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favorable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future. For details, please refer to "**Financial Information**" on page no. 124 of this Letter of Offer.

19. Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows

Our Company has not paid any dividend in past three years to our shareholders. Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past, and there can be no assurance that our Company will declare dividends in the future.

20. Our success depends largely upon the services of our Board of Directors and other Key Managerial Personnel(s) and our ability to retain them. Our inability to attract and retain Board of Directors, Key Managerial Personnel(s) and Senior Management Personnel(s) may adversely affect the operations of our Company.

Our success largely depends on the continued services and performance of our Board of Directors and other Key Managerial Personnel(s). The loss of service of the Board of Directors, Key Managerial Personnel(s) and other Senior Management Personnel(s) could seriously impair the ability to continue to manage and expand the business efficiently. Further, the loss of any of the Directors, Senior Management Personnel(s) or other Key Managerial Personnel(s) may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to implement new projects and expand our business.

B. EXTERNAL RISK FACTORS:

1. The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.

The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in Letter of Offer, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian Company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on Director(s) and Key Managerial Personnel(s) from engaging in forward dealing. Further, Companies meeting certain financial thresholds are also required to constitute a committee of the Board of Directors for corporate social responsibility activities and ensure that at least 2% of the average net profits of the Company during three immediately preceding financial years are utilized for corporate social responsibility activities. Penalties for instances of non-compliance have been prescribed under the Companies Act, 2013, which may result in inter alia, our Company, Director(s) and Key Managerial Personnel(s) being subject to such penalties and formal actions as prescribed under the Companies Act, 2013, should we not be able to comply with the provisions of the New Companies Act within the prescribed timelines, and this could also affect our reputation.

To ensure compliance with the requirements of the Companies Act, 2013 within the prescribed timelines, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. While we shall endeavour to comply with the prescribed framework and procedures, we may not be in a position to do so in a timely manner.

2. Political, economic, or other factors that are beyond our control may have adversely affect our business and results of operations.

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition, and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional, and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional, and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, and volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

3. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects, and results of operations.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Any increase in taxes and levies, or the imposition of new taxes and levies in the future, could increase the cost of production and operating expenses. Taxes and other levies imposed by the central or state governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. The central and state tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the central or state governments may adversely affect our competitive position and profitability.

4. *Financial instability in both Indian and International financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance, and the trading price of the Equity Shares.

5. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GOI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

6. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance.*

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

7. *Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and Pakistan might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other/ adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

8. *Any further downgrading of our debt ratings or of India's sovereign debt rating may adversely affect our business.*

Any downgrading of our credit ratings may increase interest rates on our outstanding debt, increase interest rates for refinancing our outstanding debt, which would increase our financing costs, and materially and adversely affect our ability to raise new capital on a competitive basis, which may adversely affect our profitability and future growth. In addition, any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available. This may materially and adversely affect our capital expenditure plans, business and future financial performance and our ability to fund our growth in future.

9. *The ability of Indian companies to raise foreign capital may be constrained by Indian law.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

10. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- i. any increase in Indian interest rates or inflation;
- ii. any scarcity of credit or other financing in India;
- iii. prevailing income conditions among Indian consumers and Indian corporations;
- iv. changes in India's tax, trade, fiscal or monetary policies;
- v. political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- vi. prevailing regional or global economic conditions; and
- vii. other significant regulatory or economic developments in or affecting India.

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

11. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

12. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. - 4. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian Company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

5. *You may not receive the Equity Shares that you subscribe into the Issue until the receipt of trading approval from the Stock Exchange(s), which will subject you to market risk.*

The Equity Shares that you subscribe into the Issue may not be credited to your demat account with the depository participants until the receipt of trading approval from the stock exchange(s). You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

6. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all, which may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, approval for listing and trading of the Equity Shares will not be granted by the Stock Exchange until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchange. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

7. *No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchange during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the Equity Share price. Factors affecting the volatility of the Share price, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the Equity Share price will have an adverse impact on the trading price of the Rights Entitlements. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

8. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in our Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

9. *The Rights Entitlements may not be credited into your demat account on time and you may not be able to trade such Rights Entitlements on the platform of the Stock Exchange.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. The Rights Entitlements that you may be entitled to may not be credited into your demat account in a timely manner. In relation to the SEBI Rights Issue circular, the Eligible Equity Shareholders can trade in such Rights Entitlements on the platform of the Stock Exchange after the Issue Opening Date and such trading shall be closed at least three working days prior to the Issue Closing Date. We cannot assure that the Rights Entitlements allocated to you will be credited to your demat account in a timely manner or at all, which will impact your ability to trade in the Rights Entitlements.

10. *We have evolved a mechanism for credit of the Rights Equity Shares in respect of the Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) who have not furnished the details of their demat account to the Registrar or our Company at least two working days prior to the Issue Closing Date. However, this mechanism may entail a risk that the sale of such shares by the Company on the open market subsequently may not be at a price acceptable to such shareholders. Further, the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholder”) may lapse in case they fail to furnish the details of their demat account to the Registrar.*

Please note that in accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Equity Shares shall be made in dematerialized form only. Accordingly, Eligible Equity Shareholders holding Equity Shares in physical form as on Record Date i.e. [•] and desirous of subscribing to Equity Shares in this Issue are advised to furnish the details of their demat account to the Registrar to the Issue or our Company in the manner provided on the website of the Registrar to the Issue at <https://rights.cameoindia.com/oasis> at least two working days prior to the Issue Closing Date i.e. 7th July, 2026 to enable the credit of their Rights Entitlements in their respective demat accounts at least one day before the Issue Closing Date i.e. 9th July, 2026. They may also communicate with the Registrar with the help of the helpline number at 044-40020700 and their email address at rights@cameoindia.com

Prior to the Issue Opening Date, the Rights Entitlements of those Eligible Equity Shareholders, among others, who hold Equity Shares in physical form, and whose demat account details are not available with our Company or the Registrar to the Issue, shall be credited in a demat suspense escrow account opened by our Company.

In accordance with the SEBI Rights Issue Circulars, the Eligible Equity Shareholders, who hold Equity Shares in physical form as on Record Date and who have not furnished the details of their demat account to the Registrar or our Company at least two working days prior to the Issue Closing Date, i.e. 7th July, 2026, desirous of subscribing to Rights Equity Shares may also apply in this Issue during the Issue Period. Such Eligible Equity Shareholders must check the procedure for Application by and credit of Rights Equity Shares in *Section Terms of the Issue - “Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form”* and *“Credit and Transfer of Rights Equity Shares in case of Shareholders holding Equity Shares in Physical Form and disposal of Rights Equity Shares for non-receipt of demat account details in a timely manner”* on page nos. 156 and 174 respectively of this Letter of Offer.

11. *Investors will be subject to market risks until our Equity Shares credited to the investor’s demat account are listed and permitted to trade.*

Investors can start trading our Equity Shares allotted to them only after they have been credited to an investor’s demat account, are listed and permitted to trade. Since our Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for our Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that our Equity Shares allocated to an investor will be credited to the investor’s demat account or that trading in such Equity Shares will commence in a timely manner.

12. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors’ fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a Company in another jurisdiction. Shareholders’ rights including in relation to class actions, under Indian law may not be as extensive as shareholders’ rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

The Company is in compliance with the applicable RBI capital adequacy requirements and maintains a CRAR well above the prescribed minimum threshold.

Company's CRAR is well above the regulatory requirement, the decision to raise additional capital is strategically justified. The Company is in a growth phase and requires a stronger capital base to support the expansion of its asset portfolio without compromising prudential norms. Further, additional capital provides a buffer to absorb potential credit, market, and operational risks, especially in a dynamic economic environment. It also enhances the Company's ability to pursue new business opportunities, improve its leverage capacity, and maintain a healthy capital adequacy position on a sustained basis.

CRAR Before rights issue

Capital Fund = 1423.72 Lakhs

RWA = 1166.87 Lakhs

CRAR is 122%

CRAR After rights issue of ₹2775 lakhs

Rights issue increases capital fund:

New Capital Fund = 1423.72 + 2775 = 4198.72 Lakhs

RWA = 1166.87 + (2775*20%) = 1721.87 Lakhs

CRAR = 243.84%

- CRAR increases from 122% to 243.84%
- RWA also increases due to 20% risk weight on bank balance
- But capital increases much more than RWA

LEVERAGE

With no outstanding debt, the Company remains unleveraged from a financial standpoint, regardless of the increase in CRAR. The proposed rights issue strengthens the equity base but does not introduce financial leverage, as funding continues to be entirely equity-driven.

Key points:

- **Current Financial Leverage:** Nil (debt-free balance sheet).
- **Equity Multiplier:** 1.0x (Total Assets = Total Equity), indicating no leverage.
- **Post-Issue CRAR (243.84%):** This reflects a very strong capital adequacy position, far exceeding the regulatory minimum (typically ~15% for NBFCs).

While financial leverage remains zero, the significantly higher CRAR indicates substantial **headroom to raise debt in the future**. Based on the surplus over the regulatory requirement, the Company could theoretically expand its borrowing multiple times (approximately 16–17x of the minimum capital requirement buffer) while still remaining compliant.

Summary of Changes:

- **Capital Base:** Increased from ₹1,423.72 lakhs to ₹4,198.72 lakhs.
- **CRAR:** Improved from ~122% to ~243.84%.
- **Leverage Position:** Remains nil, but with **enhanced future borrowing capacity** due to a stronger capital cushion.

PROPOSED UTILISATION OF RIGHTS ISSUE PROCEEDS

Funds raised through the proposed rights issue are primarily intended to be deployed towards its core lending activities under the NBFC business. Pending deployment in loan disbursements, the funds may be temporarily parked in liquid and low-risk investment and trading instruments. This is an interim measure to ensure efficient utilization of funds during the period when there is no immediate demand for loans or while loan applications are under process.

As and when loan opportunities arise, such investments will be liquidated to the extent required, and the proceeds will be utilized for disbursement to eligible borrowers. Accordingly, the investment and trading portfolio is not a

primary objective but only a temporary deployment mechanism to optimize returns and maintain liquidity until the funds are deployed in the lending business.

2. General Corporate Purpose:

We intend to deploy Rs. 225.00 Lakhs from Gross Proceeds of the Rights Issue towards General Corporate purposes. The General Corporate purposes for which our Company proposes to utilize issue proceeds include but not restricted to entering into brand building exercises and strengthening our marketing capabilities, general maintenance, partnerships, tie-ups or contingencies in ordinary course of business which may not be foreseen or any other purposes as approved by our Board of Directors. WORLD ECONOMIC OUTLOOK***Global Economy: Tenuous Resilience amid Persistent Uncertainty***

Global growth is projected at 3.0 percent for 2025 and 3.1 percent in 2026. The forecast for 2025 is 0.2 percentage point higher than that in the reference forecast of the April 2025 World Economic Outlook (WEO) and 0.1 percentage point higher for 2026. This reflects stronger-than-expected front-loading in anticipation of higher tariffs; lower average effective US tariff rates than announced in April; an improvement in financial conditions, including due to a weaker US dollar; and fiscal expansion in some major jurisdictions. Global headline inflation is expected to fall to 4.2 percent in 2025 and 3.6 percent in 2026, a path similar to the one projected in April. The overall picture hides notable cross-country differences, with forecasts predicting inflation will remain above target in the United States and be more subdued in other large economies.

Risks to the outlook are tilted to the downside, as they were in the April 2025 WEO. A rebound in effective tariff rates could lead to weaker growth. Elevated uncertainty could start weighing more heavily on activity, also as deadlines for additional tariffs expire without progress on substantial, permanent agreements. Geopolitical tensions could disrupt global supply chains and push commodity prices up. Larger fiscal deficits or increased risk aversion could raise long-term interest rates and tighten global financial conditions. Combined with fragmentation concerns, this could reignite volatility in financial markets. On the upside, global growth could be lifted if trade negotiations lead to a predictable framework and to a decline in tariffs. Policies need to bring confidence, predictability, and sustainability by calming tensions, preserving price and financial stability, restoring fiscal buffers, and implementing much-needed structural reforms.

So Far, So Resilient

Since the April 2025 WEO, *uncertainty* has remained elevated even as effective tariff rates have come down (Figure 1). Most notably, China and the United States on May 12 agreed to lower for 90 days (until August 12) tariffs that had resulted from post-April 2 escalation. The US pause on higher tariffs for most of its trading partners is now set to expire on August 1, pushing back the original deadline of July 9. Letters issued by the US administration in July to some trading partners threaten to impose tariffs even higher than those announced on April 2. Legal proceedings are currently underway in the United States concerning the use of the International Emergency Economic Powers Act as a legal basis for the imposition of tariffs. Although the passage of the One Big Beautiful Bill Act (OBBBA) in July brought clarity to the near-term path of US fiscal policy, it has added to uncertainty about longer-term fiscal sustainability.

Figure 1. Tariffs and Global Uncertainty
(Percent; index, right scale)

Sources: World Trade Organization; World Uncertainty Index (WUI) database; and IMF staff calculations.
Note: US effective tariff rates include the tariffs announced April 2, until April 9, when they were paused, and additional tariffs on China announced April 8 and afterward, until May 10, when they were paused. These effective tariff rates are based on a pre-2025 United States-Mexico-Canada Agreement compliance rate. The WUI database is constructed based on methodology in Ahir, H., N. Bloom, D. Furceri. 2022. "The World Uncertainty Index." NBER Working Paper 29763. The WUI is calculated by counting the frequency of the word "uncertain" in Economist Intelligence Unit country reports and normalizing by the total number of words. The index is then rescaled by multiplying by 1,000,000 and weighted using the 5-year moving average of nominal GDP in US dollar.

Global financial conditions have eased (Box 1). US equity markets have largely rebounded, erasing losses from the April 2 tariff fallout and reaching new heights. Other global equity markets have also rallied, swayed by tariff-related announcements and releases of macroeconomic data that turned out to be better than expected. Notably, *the US dollar* has depreciated further, defying expectations that tariffs and larger fiscal deficits would cause the currency to appreciate. Implied paths for policy rates have flattened for advanced economies, while continued dollar weakness has provided some monetary policy space for emerging market and developing economies. Yield curves have steepened in the context of fiscal concerns, although the steepening thus far is not unusual by historical standards despite very high debt and deficit levels in many countries.

With these forces in place, the global economy has continued to hold steady, but the composition of activity points to distortions from tariffs, rather than underlying robustness. *Global growth* in the first quarter of 2025 was 0.3 percentage point above that predicted in the April WEO. International trade and investment drove activity, while private consumption was more subdued across major jurisdictions. Real GDP decreased in the United States, at an annualized rate of 0.5 percent, marking the first quarterly contraction in three years. Consumer spending rose only by 0.5 percent, but this came after remarkably fast growth of 4.0 percent in the fourth quarter of 2024. Imports and business investment surged—especially in information processing equipment. Taken together, these patterns were consistent with aggressive front-loading by US firms and households ahead of expected higher prices induced by tariffs. In the euro area, GDP accelerated to 2.5 percent, driven by investment and net exports, even as private consumption lost steam. Ireland largely led the spurt, with growth shrinking to 1.4 percent when Ireland is excluded. China’s real GDP growth, at an annualized rate of 6.0 percent, exceeded expectations. This was mainly driven by exports, propped up by a depreciating renminbi closely tracking the dollar and with declining sales to the United States more than offset by strong sales to the rest of the world (Figure 2), and, to a smaller extent, by consumption, supported by fiscal measures. Japan’s economy contracted by an annualized 0.2 percent, as soft private consumption and weak net exports weighed on growth while strong private investment helped cushion the decline. *Global trade* grew robustly in the first quarter, but high-frequency indicators point to an unwinding of front-loading in the second quarter.

Global inflation is showing mixed signs. The global median of sequential headline inflation has increased a notch, but core inflation has eased considerably and is now below 2 percent. Several economies, including the euro area, have seen downside surprises. In the United States, inflation has ticked up, with tentative signs of pass-through from tariffs and a weaker dollar to consumer prices in some import-sensitive categories, and intermediate goods costs for producers have risen.

INDIA ECONOMIC OUTLOOK

Introduction:

India’s economic journey over the past few years has been marked by remarkable growth and a steady rise in its position on the global stage. After overtaking the United Kingdom (UK) to become the fifth largest economy in Q1 FY23, India has continued this upward trajectory to surpass Japan in June 2025 to become the fourth largest economy in the world. With a nominal Gross Domestic Product (GDP) of Rs. 3,31,03,000 crore (US\$ 3.78 trillion), India’s growth reflects a combination of strong domestic demand and policy reforms positioning the country as a key destination for global capital.

Further, India is projected to reach a GDP of Rs. 4,26,45,000 crore (US\$ 5 trillion) by 2027 and is on course to surpass Germany by 2028. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Market Overview:

India's economy shows robust expansion, with real GDP for FY25 estimated at Rs. 1,87,97,000 crore (US\$ 2.20 trillion), from Rs. 1,76,51,000 crore (US\$ 2.06 trillion) in FY24 with a growth rate of 6.5%. This growth is driven by rising employment and stronger private consumption, supported by improving consumer sentiment, which is expected to keep the momentum going in the near future.

Trade remains a critical pillar of India's growth story with exports reaching Rs. 37,31,000 crore (US\$ 436.6 billion) in FY25, led by Engineering Goods (26.88%), Petroleum Products (13.86%) and Electronic Goods (8.89%). These exports helped the economy stay resilient during the pandemic when other sectors slowed. Union Minister of Commerce and Industry, Mr. Piyush Goyal projects exports to reach Rs. 85,44,000 crore (US\$ 1 trillion) by 2030.

India's ability to attract Foreign Direct Investment (FDI) has also strengthened. The country received record FDI inflows amounting to Rs. 4,21,929 crore (US\$ 49.3 billion) in FY25 a 15% increase over FY24, supported by a stable policy environment, a large domestic market and steady economic growth positioning the country as a key destination for global capital. This capital inflow also complements government plans for increased investment in infrastructure and asset-building projects to further boost economic growth.

India's external economic position is improving. The current account deficit narrowed to Rs. 1,98,726 crore (US\$ 23.30 billion), or 0.6% of GDP, in FY25 from Rs. 2,21,754 crore (US\$ 26.00 billion), or 0.7% of GDP, in FY24. This improvement was due to higher net receipts from services and secondary income, according to the Reserve Bank of India (RBI).

Recent Developments:

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With India's economy showing resilient growth, supported by strong domestic demand, policy reforms, and a healthy investment pipeline, several new projects and developments are underway across key sectors. This positive development across key sectors is evident from following key economic data points.

- According to the Department for Promotion of Industry and Internal Trade (DPIIT), India's cumulative FDI inflow stood at Rs. 91,45,988 crore (US\$ 1.07 trillion) between April 2000-March 2025 with major share coming from Mauritius at Rs. 15,36,849 crore (US\$ 180.19 billion) with a total share of 25%, followed by Singapore at 24% with Rs. 14,91,603 crore (US\$ 174.88 billion), the United States (US) at 10% with Rs. 6,02,574 crore (US\$ 70.65 billion), the Netherlands at 7% with Rs. 4,54,613 crore (US\$ 53.3 billion), and Japan at 6% with Rs. 3,78,653 crore (US\$ 44.39 billion).
- As of July 4, 2025, India's foreign exchange reserves stood at Rs. 59,68,048 crore (US\$ 699.74 billion).
- In May 2025, private equity (PE) and venture capital (VC) investments reached Rs. 20,470 crore (US\$ 2.4 billion) across 97 deals.
- Foreign Institutional Investors (FII) outflows in FY25 were close to Rs. 1,27,000 crore (US\$ 14.89 billion), while Domestic Institutional Investors (DII) bought in Rs. 6,00,000 crore (US\$ 70.34 billion) in the same period.
- The HSBC India Manufacturing Purchasing Managers' Index (PMI) rose to a 14-month high of 58.4 in June 2025 from 57.6 in May, indicating a strong improvement in manufacturing conditions. Robust domestic and international demand drove sharp increases in output and new orders, while employment saw a record rise as firms expanded their workforce to meet rising workloads. New export orders surged, marking the third-fastest growth since the survey began in 2005. Although input cost inflation eased, producer prices increased as companies passed on higher freight and labour costs to customers.
- India saw a robust 10.35% growth in passengers carried by domestic airlines at 431.98 lakh in FY25, from 391.46 lakh in FY24, according to the Directorate General of Civil Aviation (DGCA).
- India secured 39th position out of 133 economies in the Global Innovation Index 2024. India rose from 81st position in 2015 to 39th position in 2024. India ranks third position in the global number of scientific publications.
- In FY25, the Goods and Services Tax (GST) recorded its highest-ever gross collection at Rs. 22,08,000 crore (US\$ 258 billion), registering a YoY growth of 9.4%. The average monthly collection stood at Rs. 1,84,000 crore (US\$ 21.57 billion).

- In May 2025, the overall Index of Industrial Production (IIP) stood at 156.6 (base 2011–12 = 100), reflecting a YoY growth of 1.2%. The mining, manufacturing and electricity sectors stood at 136.6, 154.3 and 216, respectively.
- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) - Combined inflation was 3.34% in March 2025 against 4.85% in March 2024.
- India's wheat procurement for FY26 has reached 29.7 million tonnes as of May 22, 2025, the highest in four years and up 13.5% YoY. Strong production of 115.43 million tonnes, favourable weather, and bonuses above the Minimum Support Price (MSP) in key states have driven this growth. The Food Corporation of India expects procurement to hit 32.5 million tonnes by season end, raising stocks to 44 million tonnes, well above the 18.4 million tonnes needed for the Public Distribution System.

Government Initiatives:

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, several of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, is aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- On July 5, 2025, the Union Cabinet approved the Rs. 1,00,000 crore (US\$ 11.72 billion) Research, Development and Innovation (RDI) Scheme, launching long-term, low- or zero-interest funding via a special purpose fund under the ANRF to jump-start India's R&D ecosystem and support deep-tech and startup innovation.
- On March 27, 2025, the Reserve Bank of India proposed doubling the investment cap for individual foreign investors in listed firms from 5% to 10%, with a combined foreign individual limit increasing to 24%, to counter Foreign Portfolio Investment (FPI) outflows.
- According to a report by Wood Mackenzie in January 2025, India, the US, and West Asia are expected to collectively add 100 Gigawatts (GW) of solar capacity by 2025, while China is anticipated to continue its leadership in the solar industry.
- In July 2024, the Ministry of Finance held the Union Budget and announced that for 2024-25, the total receipts other than borrowings and the total expenditure are estimated at Rs. 32,07,000 crore (US\$ 375 billion) and Rs. 48,21,000 crore (US\$ 564 billion), respectively.
- In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).
- On January 22, 2024, Prime Minister Mr. Narendra Modi announced the 'Pradhan Mantri Suryodaya Yojana'. Under this scheme, one crore households will receive rooftop solar installations.
- On September 17, 2023, Prime Minister Mr. Narendra Modi launched the Central Sector Scheme PM-VISHWAKARMA in New Delhi. The new scheme aims to provide recognition and comprehensive support to traditional artisans & craftsmen who work with their hands and basic tools. This initiative is designed to enhance the quality, scale, and reach of their products, as well as to integrate them with Micro, Small and Medium Enterprises (MSME) value chains.
- On August 6, 2023, Amrit Bharat Station Scheme was launched to transform and revitalize 1,309 railway stations across the nation. This scheme envisages development of stations on a continuous basis with a long-term vision.
- On June 28, 2023, the Ministry of Environment, Forests, and Climate Change introduced the 'Draft Carbon Credit Trading Scheme, 2023'.
- From April 1, 2023, Foreign Trade Policy 2023 was unveiled to create an enabling ecosystem to support the philosophy of 'Aatmanirbhar Bharat' and 'Local goes Global'.
- To enhance India's manufacturing capabilities by increasing investment and production in the sector, the government of India has introduced the Production Linked Incentive Scheme (PLI) for Pharmaceuticals.
- Prime Minister's Development Initiative for North-East Region (PM-DevINE) was announced in the Union Budget 2022-23 with a financial outlay of Rs. 1,500 crore (US\$ 182.35 million).
- Prime Minister Mr Narendra Modi has inaugurated a new food security scheme for providing free food grains to Antyodaya Ann Yojna (AAY) & Primary Household (PHH) beneficiaries, called Pradhan Mantri Garib Kalyan Ann Yojana (PMGKAY) from January 1, 2023.

Road Ahead:

India's economy grew by 6.5% in FY25. With a 7.4% growth rate in Q4 FY25, with RBI projecting a growth rate of 6.5% in FY26 as well. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. In 2024, India rose to 15th place globally in FDI rankings and retained its position as South Asia's top recipient.

In H1 FY25, India's growth-focused approach was underscored by the government's capital expenditure outlay of Rs. 15,02,000 crore (US\$ 176 billion), reinforcing its commitment to infrastructure-led development.

In the Union Budget of FY26, capital expenditure took lead by steeply increasing the capital expenditure outlay by 10% to Rs. 11,21,000 crore (US\$ 131 billion) over Rs. 10,18,000 crore (US\$ 119 billion) in FY25. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

India's total goods and service exports surged by 76% over the past decade, touching Rs. 70,36,425 crore (US\$ 825 billion) in FY25, driven by strong performance in engineering goods, electronics, and pharmaceuticals. With a reduction in port congestion, supply networks are being restored.

With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

OVERVIEW OF NBFC SECTOR IN INDIA

Non-Banking Financial Companies ("NBFCs") are financial institutions engaged in the business of providing loans and advances, acquisition of securities, leasing, hire-purchase, and other financial services, and are regulated by the Reserve Bank of India under the Reserve Bank of India Act, 1934; NBFCs play a complementary role to banks by catering to underserved and unbanked segments of the economy, including micro, small and medium enterprises ("MSMEs"), retail borrowers and rural households, thereby contributing to financial inclusion and credit intermediation in the Indian financial system.

Global Market

The global Non-Banking Financial Companies ("NBFC") sector constitutes a significant component of the broader financial services ecosystem, with NBFCs and similar non-bank financial intermediaries accounting for approximately 15% of total global financial system assets and playing a critical role in credit intermediation, particularly in emerging markets, where they contribute nearly 25% of total lending activities; the global NBFC market size was estimated at approximately USD 235.4 billion in 2026 and is projected to reach approximately USD 441.9 billion by 2035, growing at a compound annual growth rate ("CAGR") of approximately 6.5% during the forecast period, driven by increasing adoption of digital lending platforms, expansion of unsecured retail credit, and growing participation of institutional investors, with nearly 45% of investors increasing exposure to NBFC debt instruments between 2023 and 2025, while globally, non-bank or "shadow banking" entities account for over 45% of total non-bank financial assets, reflecting their systemic importance; further, developed markets such as the United States have witnessed significant penetration of non-bank lenders, which account for approximately 50% of mortgage originations and a substantial share of consumer lending, while digital NBFCs and fintech-led platforms process a majority of unsecured loan applications through automated underwriting systems, thereby indicating an ongoing structural shift towards technology-driven credit intermediation across global markets.

Indian Market

The Non-Banking Financial Company ("NBFC") sector in India has emerged as a systemically important segment of the financial system, demonstrating sustained growth in scale and credit intermediation, with the aggregate balance sheet expanding by approximately 18.9% year-on-year to ₹61.09 lakh crore as at March 31, 2025, and further increasing to approximately ₹65.51 lakh crore by September 2025, primarily driven by robust growth in loans and advances; total gross advances of NBFCs increased to approximately ₹48.39 lakh crore as at March 2025 from ₹40.53 lakh crore in the previous year, reflecting strong credit demand across retail, industry and services segments, with

industry and retail together accounting for over 81% of total credit, while the services segment recorded the highest growth of approximately 29.8% year-on-year, indicating diversification of lending portfolios; the sector continues to exhibit improving asset quality, with gross non-performing assets (“GNPA”) declining to approximately 2.9% as at March 2025, although certain segments such as microfinance remain under stress, and overall growth in NBFC credit is expected to moderate to approximately 13%–15% in FY2025 and FY2026, supported by sustained demand in retail and MSME financing, thereby underscoring the continued relevance of NBFCs in addressing credit gaps and supporting economic activity in India.

SWOT Analysis

- **Strength:** RBI regulations encourage responsible lending, protect vulnerable borrowers from predatory practices, promote financial stability by addressing high delinquency rates, and support the long-term health and sustainability of the NBFC and fintech sectors.
- **Weakness:** Tighter norms may restrict financial inclusion by making small-ticket loans less accessible and could slow overall credit growth due to increased lending caution and costs.
- **Opportunity:** Stricter underwriting and higher risk weights push lenders and fintechs to reduce risk, maintain quality loan portfolios, and reevaluate strategies for loan disbursement and recovery, fostering better risk management practices.
- **Threat:** Growth of early-stage fintech startups may slow due to higher funding costs, and players with less diversified capital structures may face significant challenges, while well-capitalized and strategically managed firms are less impacted.

Government Initiatives

Financial Inclusion is an important priority of the Government. The objective of Financial Inclusion is to extend financial services to the large hitherto un-served population of the country to unlock its growth potential. The Government initiated the National Mission for Financial Inclusion (NMFII), namely, the Pradhan Mantri Jan Dhan Yojana (PMJDY) in August, 2014 to provide universal banking services for every unbanked household, based on the guiding principles of banking the unbanked, securing the unsecured, funding the unfunded and serving un-served and under-served areas.

1. Pradhan Mantri Jan Dhan Yojana (PMJDY): Launched in 2014, PMJDY aims to provide every unbanked adult with a bank account, financial literacy, and access to basic banking services including RuPay debit cards, overdraft facilities, and banking through Bank Mitras.

2. Pradhan Mantri Suraksha Bima Yojana (PMSBY): A low-cost personal accident insurance scheme offering Rs. 2 lakh coverage for death or permanent disability and Rs. 1 lakh for partial disability, with annual premiums of Rs. 20, linked to bank accounts and auto-debit payments.

3. Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY): A life insurance scheme providing Rs. 2 lakh coverage for death due to any reason, available to 18–50-year-old bank account holders, with an annual premium of Rs. 436 and automatic bank account-linked premium payment.

4. Atal Pension Yojana (APY): Encourages unorganized sector workers to save for retirement by providing a guaranteed minimum pension ranging from Rs. 1,000 to Rs. 5,000 per month, with contributions based on age and periodicity, backed by government support if returns are insufficient.

5. Pradhan Mantri MUDRA Yojana (PMMY): Provides collateral-free loans to micro-enterprises under categories Shishu, Kishore, Tarun, and Tarun Plus, enabling working capital and term loans for small businesses, through banks, NBFCs, and MFIs.

6. Stand-Up India Scheme (SUPI): Promotes entrepreneurship among SC/ST and women by offering loans of Rs. 10 lakh to Rs. 1 crore for greenfield projects in manufacturing, services, or trading, supported with online guidance and training via dedicated portals.

Road Ahead

A disciplined investment framework is essential for navigating NBFCs in 2026. Investors should prioritise lenders with stable asset quality, strong provisioning, diversified low-cost liabilities and a portfolio skewed toward secured products such as home loans, LAP, vehicles and gold finance. Robust Tier-1 capital and prudent regulatory compliance further enhance resilience. Against this backdrop, NBFCs remain an attractive long-term theme, but the year calls for selective exposure rather than broad participation.

The strongest opportunities lie in gold-loan NBFCs with high growth and secured collateral, large diversified players with superior ALM and consistent profitability and housing finance/ LAP lenders benefiting directly from lower rates and improved affordability. In contrast, microfinance NBFCs and smaller unsecured-focused lenders warrant caution due to elevated credit risks and weaker buffers. As credit penetration deepens and rate cuts transmit across the system, the sector will stay central to India's lending ecosystem—but outperformance will come only from owning the right winners.

The GST is governed by GST Council and its Chairman is Union Finance Minister of India – Arun Jaitley. This Act has been made applicable with effect from 1st July 2017. With the introduction of GST all central, state level taxes and levies on all goods and services have been subsumed within an integrated tax having two components – central GST and a state GST. Thus there will be a comprehensive and continuous mechanism of tax credits. The Central government passed four sets of GST Acts in the Budget session this year. These were Central GST Act, 2017; Integrated GST Act, 2017; Union Territory GST Act, 2017 and GST (Compensation to States) Act, 2017. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013 (the "Act") and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India ("ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Results' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the ICAI together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Board of Directors' Responsibilities for the Standalone Financial Results

These Standalone Financial Results have been compiled from the standalone audited financial statements. The Company's Board of Directors are responsible for the preparation of these Standalone Financial Results that give a true and fair view of the net profit and other comprehensive income and other financial information, the Standalone Statement of Assets and Liabilities and the Standalone Statement of Cash Flows in accordance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder, the RBI Guidelines and other accounting principles generally accepted in India and in compliance with Regulation 33 and Regulation 52 read with Regulation 63 of the Listing Regulations.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Results, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on appropriateness of the Board of Directors' use of going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

The Standalone Financial Results include the results for the quarter ended March 31, 2026, being the balancing figures between the audited figures in respect of the full financial year and the published unaudited year to date figures up to the third quarter of the current financial year which were subject to limited review by us.

a. Impairment of financial assets (expected credit loss)	
<p>Ind AS 109 requires the Company to recognise impairment loss allowance towards its financial assets (designated at amortised cost and fair value through profit & loss) using the expected credit loss (ECL) approach. Such ECL allowance is required to be measured considering the guiding principles of Ind AS 109 including:</p> <ul style="list-style-type: none">• unbiased, probability weighted outcome under various scenarios.• time value of money.• impact arising from forward looking macro-economic factors and.• availability of reasonable and supportable information without undue costs. <p>Applying these principles involves significant estimation in various aspects, such as:</p> <ul style="list-style-type: none">• grouping of borrowers based on homogeneity by using appropriate statistical techniques.• staging of loans and estimation of behavioural life.• determining macro-economic factors impacting credit quality of receivables.• estimation of losses for loan products with no/minimal historical defaults. <p>Considering the significance of such allowance to the overall financial statements and the degree of estimation involved in computation of expected credit losses, this area is considered as a key audit matter.</p>	<ul style="list-style-type: none">• We read and assessed the Company's accounting policies for impairment of financial assets and their compliance with Ind AS 109.• We tested the criteria for staging of loans based on their past-due status to check compliance with requirement of Ind AS 109. Tested a sample of performing (stage 1) loans to assess whether any loss indicators were present requiring them to be classified under stage 2 or 3 and vice versa.• We evaluated the reasonableness of the Management estimates by understanding the process of ECL estimation and tested the controls around data extraction and validation.• Tested the ECL model, including assumptions and underlying computation.• Assessed the floor/minimum rates of provisioning applied by the Company for loan products with inadequate historical defaults. <p>Audited disclosures included in the Ind AS financial statements in respect of expected credit losses.</p>

b. Fair Valuation of Investments	
<p>The Company's investments (other than investment in Subsidiary and Associates) are measured at fair value at each reporting date and these fair value measurements significantly impact the Company's financials. Within the Company's investment portfolio, the valuation of certain assets such as unquoted equity and bonds requires significant judgement as a result of quoted prices being unavailable and limited liquidity in these markets.</p>	<p>We have assessed the Company's process to compute the fair value of various investments. For quoted instruments we have independently obtained market quotations and recalculated the fair valuations. For the unquoted instruments, we have obtained an understanding of the various valuation methods and management used amortized cost method.</p>

the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate action as applicable under the relevant laws and regulations.

Management's responsibility for the Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance along with other comprehensive income/profit, statement of changes in equity and cash flows of the company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, board of directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013 we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

• Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidences obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements of branches included in the standalone financial statements of the Company as the company does not have any branch. Our opinion is not modified in respect of this matter.

Annexure 'B' to the Independent Auditors Report of the company for year ended 31st March, 2025

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **OASIS SECURITIES LIMITED** ("the Company") as of 31 March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as on March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's responsibility for internal financial controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

b) Fair value hierarchy

The fair value of financial instruments as referred to in note (a) above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows:

Level 1 - Quoted prices (unadjusted) for identical assets and liabilities in an active markets.

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

c) Measurement of Fair Value

The fair values of financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Methods and assumptions used to estimate the fair values are consistent in all the years. The following methods and assumptions were used to estimate the fair values:

i) The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of mutual funds. Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors.

ii) The Management assesses that fair values of trade receivables, cash and cash equivalents, other bank balances, loans, trade payables, current borrowings, other current liabilities and other financial liabilities (current), approximate to their carrying amounts largely due to the short-term maturities of these instruments.

iii) The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amount would be significantly different from the values that would eventually be received or settled.

ANNEXURE III
MANAGEMENT DISCUSSION AND ANALYSIS

a. Business Overview & Trends

In FY 2024–25, the Indian economy showed remarkable resilience and growth amid global uncertainties. Digital transformation gained momentum, with widespread adoption of UPI, Paytm, and Google Pay—even among small vendors. This shift toward a cashless economy supported greater financial formalization. Improved credit discipline led to a continued decline in NPAs across the financial sector. As an NBFC, we benefited from stronger borrower profiles and favorable liquidity. Capital availability improved, enabling well-structured lending. Our focus on credit quality and risk management helped preserve a healthy loan book. For yet another year, we reported no bad loans or NPAs. Our investment portfolio also performed well, with multiple assets appreciating in value. These results reflect our prudent financial practices and strategic credit deployment. We remain committed to responsible lending and supporting India's economic growth. FY 2024–25 was a year marked by stability, opportunity, and sustained progress for our company.

b. Nature of Industry

Risk is inherent in the financial industry, but managing the risk well is what enables us to take the next risky bet, and thereby earn above normal returns. Excellent management by our Central Bank helped keep the industry on a stable footing, and most of our performance was based on the inherent strength of the Indian financial system. Global factors like high oil prices and higher interest rates are playing truant this year, but we expect our economy as well as our companies to manage both well.

c. Business Performance

We have benefited greatly from the excellent rally in the equity markets over the past year which has helped us post good profits for the year. We are faced with different challenges this year, but continue to be optimistic in the long run.

d. Risks & Concerns

All our borrowers kept their accounts in good stead even through the various challenges faced by the economy. The volatility in the stock market will continue to affect our performance, either towards the positive or negative, and while we hope to profit from it, it will also remain a source of risk.

e. Internal Control Systems and Their Adequacy

We believe that our internal control systems are adequate for the scale of our operations.

f. Limitations of Financial Statements

Our greatest strength is our people, a strength that no number in the Balance Sheet can cover. With the abilities of our people, we believe that we will continue to do well over the longer period of time.

g. Future Outlook

With our country going from strength to strength and our companies managing the current high inflationary scenario with aplomb, we are very bullish on the future outlook for our country as well as our financial markets. The celebration of the Amrit Mahotsav of our 75th Independence Day has evoked a greater emotion for the country in its people and brought them even closer to each other. The ground has been well prepared for greater success over

the next 50years.

h. Segment Wise Performance

Your Company has only single segment i.e. Investment. Revenue and expenses have been identified on the basis of accounting standard and guidance note issued by Institute of Chartered Accountants of India.

i. Human Resources and Industrial Relations

We continue to maintain cordial relations with all our employees and have not had any problems with them.

j. Cautionary Statement

Financial markets implicitly mean great volatility, and while we expect to do well in the long run, it is important to note that in the short term we may see significant upheavals.

k. Discussion on financial performance with respect to operational performance.

The Company's cost reduction initiatives have yielded results as the Company was profitable despite the significant rise in input costs. Efforts to further improve efficiency continue at all levels and across all departments.

l. Material developments in Human Resources / Industrial Relations front, including number of people employed.

The total number of employees has increased at the end of the prior financial year.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy upto any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion)(“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Circular 2020**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectorial limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e. any investment which would result in the investor holding 10.00% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.
